

INSURGENTS WIN WOODMEN FIGHT

Judge Grants Injunction
Restraining Advance
in Rates by Head
Camp

THE OFFICERS TO MAKE APPEAL

Decision Affects More than
a Million Members
of Insurance
Order

SPRINGFIELD, Ill., Nov. 22.—In-
surgent Modern Woodmen of Amer-
ica won an important victory today
when Judge Robert B. Shirley in the
Sangamon county court granted their
plea for a perpetual injunction re-
straining the head officers from put-
ting into effect the proposed rate in-
crease. The decision affects more
than a million members throughout
the United States as the head offices
are located in Illinois.

The complaint made by the in-
surgents in their arguments that the
proposed rate was passed by the
head camp with less than the two-
thirds vote is not recognized by the
court.

Advance Should be Gradual
Judge Shirley found that the
Modern Woodmen organization is in
a prosperous state financially and
that any rate advance that may be
needed should be made gradually.

Upon the future action of the
head officers will depend the course
to be followed by the insurgent in
suits now pending in circuit courts
at Galesburg and Galena, Ill., and
at Hastings, Neb.

The decision establishes a prece-
dent for all future insurance soci-
eties as to the right of such soci-
eties to change the character and
contract over which they have is-
sued contracts.

The court held that the society
had a right to create a surplus and
change the rate. On the main point
as to the reasonableness of the rate,
however, he says: "It is not claimed
that there is any present necessity
for a raise in rates, nor does any
appear. With the present rate and an
average of assessments less than 12
a year, the society had accumulated
in the benefit fund on December 31,
1911, \$9,073,501.18, by means of
the assessments producing more than
the fund required, while in the gen-
eral fund there was \$660,933.44."

"It is estimated that the proposed
change in rates would produce an
accumulation of surplus of from
\$15,000,000 to \$20,000,000 a year.
Certain it is it would accumulate a
very large sum. The court is of the
opinion no such accumulation was
contemplated by section 8 of the stat-
utes, and that for this reason the
rate fixed by the laws is executive
and an unreasonable burden upon
complainants and all members of
the society, and not binding on them."

To Appeal
Attorney Truman Plantz of Rock
camp, announced that an appeal
would be taken to the appellate court
within a few days.

AGED JUDGE DIES
OMAHA, Neb., Nov. 22.—Judge
Elihu Wakeley, former member of
the Nebraska supreme court, "Dean
of the Nebraska bar," and one of the
best known lawyers in the middle
west, died at his home here today af-
ter a lingering illness. He was 91
years of age.

WOMAN GOLFER DIES
CHICAGO, Nov. 22.—Word was
received here of the death today of
Mrs. Bernard C. Horne, known to
every golf enthusiast as Miss Bessie
Anthony, at her home "Glen View"
near Keswick, Va.

WEATHER

For La Crosse and vicinity: Fair
tonight and Saturday; somewhat
higher temperature tonight.

For Wisconsin and Minnesota:
Generally fair tonight and Saturday;
warmer tonight.

For Iowa: Fair tonight and Sat-
urday with moderate temperature.

Weather Conditions
The pressure continues low
throughout the northern states with
generally fair weather. It has de-
creased in the northern Rocky moun-
tain districts and the temperature
has risen from Montana to Nebraska
and South Dakota. The western high
continues central over the plateau
region but has extended eastward
into the central and southern Missis-
sippi valley and the temperature has
fallen throughout this section with
rains in Texas and western Louisi-
ana. The tropical storm is central
this morning off the southeastern
coast of Florida. It has rained
throughout Florida, generally light
but excessive at Miami, where 7.46
inches was recorded during the past
24 hours.

The weather will probably con-
tinue fair throughout this section to-
night and Saturday with somewhat
higher temperature tonight.

CHEMIST OPENS RADIUM BANK

GRAND JUNCTION, Col.,
Nov. 22.—The first radium
"bank" in the United States
and the second in the world,
was opened today by Orr J. Ad-
ams, a chemist of this city, who
has the largest individual col-
lection of radium in the United
States. It is said to be worth
\$100,000.

His bank will supply sci-
entists and surgeons all over the
United States with radium to
be used in experiments and hos-
pital work. He will rent the met-
al only to responsible persons,
when a fixed deposit has been
made. His only competitor is a
similar bank in London.

REVISED BUDGET TO CUT EXPENSES

Park Appropriation Held
Down by Big Increase
in County Ex-
pense

COMMITTEEMEN ARE INDIGNANT

Sinking Fund Interest
Alone Saves Increase
in the Tax
Rate

The revised budget of the city as
adopted by the finance committee
of the city council at a meeting which
lasted the greater part of yesterday
afternoon, shows that the general
fund, current expense and printing
amounts to but \$14,424, thus elim-
inating all possibility of small im-
provements in the city during the
coming year.

One of the most important amend-
ments made in the budget was the
changing of the park appropriation
from \$10,000 to \$15,000. It had
been planned to make the appropria-
tion even larger than this but the
increase in the county budget made
this impossible.

Indignation over the large appropria-
tions of the county which thus
deprives the city of many of the im-
provements they had planned, played
no small part at the meeting.

The insertion of \$30,000, inter-
est on sinking funds, into the city
budget by City Comptroller William
J. Fries alone saves the city from
being forced to increase the tax rate
to 22 mills.

The budget as ratified by the fi-
nance committee and as will be sub-
mitted at the meeting of the city
council tonight follows:

mon Council of the City of La

ANDY WOULD HELP EX-PRESIDENTS

Laird of Skibo Would Give
Superannuated Execu-
tives of the Nation
\$25,000 Pension

HIS PLAN FINDS LITTLE FAVOR

General Opinion Is that
Gift Would Be Beneath
of Man Who Held the
Highest Honor

WASHINGTON, Nov. 22.—The
Carnegie foundation, the agency
through which the "Laird of Skibo"
dispenses his philanthropy, has an-
nounced as its latest benefaction a
tentative plan to pension ex-presi-
dents of the United States on \$25,-
000 a year.

Plan Not Popular

With almost unbroken unanimity
public officials and other prominent
people at the national capital, to-
day disapproved the plan. That ac-
ceptance of such a gratuity was be-
neath the dignity of one who had
filled the highest office in the land,
was the general objection to the
plan. A few public men lauded the
pension scheme as giving an oppor-
tunity for the nation to profit by the
experience and knowledge of those
who had served the people in the
White house.

President Taft was not accessi-
ble to callers today, being occupi-
ed in dictating his annual message. Just
what his view of the matter is, his
friends could not ascertain. The ex-
ecutive is a poor man, and cannot
afford to retire from active business,
when he steps down from the presi-
dency. He plans to resume law
practice at Cincinnati.

Congressmen today were discuss-
ing the probable Congress of the
next democratic Congress of the
problem of what the nation shall do
with its ex-presidents. There are a
number of members who favor Wil-
liam J. Bryan's plans to admit for-
mer executives to the councils of the
nation, by granting them a place in
the house or senate as a sort of ex-
officio counselor. Bryan made no
provision for salary, but a few mem-
bers were willing that congress
should annually provide a comfort-
able income for such councillors.

Has Given \$183,235,000

NEW YORK, Nov. 22.—The to-
tal benefactions of Andrew Carnegie,
whose latest is a proposition to pen-
sion ex-presidents \$25,000 per year,
today were estimated to be \$183,-
235,000, as follows:

Hero funds, \$7,250,000; Carnegie
teaching fund, \$21,500,000; Car-
negie institute, Washington, \$22,000,-
000; colleges in United States and
Canada, \$20,000,000; colleges in
England, \$6,800,000; trust for Scot-
tish universities, \$10,000,000; Dum-
fermline trust, \$2,500,000; Carnegie
institute at Pittsburgh, \$22,000,000;
relief fund for steel workers, \$4,-
000,000; gifts for church organs,
\$4,000,000; Hague peace tribunal
building, \$1,500,000; peace endow-
ment, \$10,000,000; libraries, \$5,-
935,000.

Taft Will Refuse

President Taft does not want An-
drew Carnegie's \$25,000 pension a
year after he leaves the presidency
but for the present time he will
withhold all comment because of his
friendship for the ironmaster. Event-
ually he will probably endorse the
idea and decline acceptance of the
money himself. This was the state-
ment of those today who discussed
the matter with the president.

Taft's friends insisted the presi-
dent would not accept the money,
first, because of the possibility that
he may again be the candidate and
would not want to be under obliga-
tions, and second, because he has
saved money during the last year.

He is worth nearly a quarter of a
million. In addition, the president's
brother is immensely wealthy and
the Taft pride would be a strong fac-
tor in controlling the president's de-
cision.

T. R. is "Mum"

OYSTER BAY, N. Y., Nov. 22.—
Colonel Roosevelt said today he
would have nothing to say regarding
Andrew Carnegie's proposal to pen-
sion all "future" ex-presidents at the
rate of \$25,000 a year. By reason of
the word "future" Roosevelt was ex-
cluded from the benefaction.

ARRAIGNS DEFENSE

COURT HOUSE, SALEM, Mass.,
Nov. 22.—Charging that counsel for
Joseph E. Etor, Arturo Giovannitti and
Joseph Caruso have built up their
case by insinuation and innuendo, that
they have practiced exaggeration and
deception by insidious methods in
attempts to influence the jury, Dis-
cussed up the commonwealth's
case in a sarcastic arraignment of
the methods used by the defense
counsel.

STICKS TO ST. PAUL

ST. PAUL, Minn., Nov. 22.—
"Spike" Harrington, familiar figure
to the local baseball fans as he has
been in evidence at all games, where
he acts in capacity of general di-
rector, will not leave St. Paul for
Indianapolis. "Spike" was made an
offer by Mike Kelley to go to In-
dianapolis and take care of the park
but does not wish to leave St. Paul.

WILSON THREATENS TO LICK PHOTO MAN

HAMILTON, Bermuda, Nov.
22.—President-elect Wilson
"flared up" today when a news-
paper photographer "snapped"
him in disregard of his ex-
pressed objection. "You're no
gentleman," he exclaimed warm-
ly, "and I'll thrash you, if you
do that again."

The photographer apologized
profusely, but the president-
elect was not much mollified—
considering that the photogra-
pher still had the plate, notwith-
standing the remorse he pro-
fessed.

This happened in the presi-
dent-elect's own yard, where
he evidently felt his wishes
ought to be respected. There
were two photographers there
at the time, but one of them did
as he was requested, and got
an approving smile—but no pic-
ture—as a reward from it.

DEARS ESCAPE AS HE HUNTS DEER

Ray Langdon and Marjorie
Hammons Slip Away to
Winona and Are
Quietly Married

THOUGHT THEY WERE TOO YOUNG

But Popular Normal Cou-
ple Refuse to Interrupt
Their Romance Pend-
ing Flight of Time

Ray Langdon and Marjorie Ham-
mons, prominent in normal circles,
were quietly married at Winona
Thursday, November 14. They had
intended to keep their nuptials se-
cret, as Mr. Langdon has not com-
pleted his normal course, but the
romance transpired today.

Ray Langdon is the son of a promi-
nent resident of Richland Center,
Wis., and is recognized as one of
the strongest classmen of the nor-
mal. He is also an athlete of im-
portance, playing on the football
team. He is decidedly popular, and
is highly esteemed by the normal
faculty.

Mrs. Langdon is the daughter of
Mrs. Frank Winter, 1625 Madison
street. She is a graduate of both the
high and normal schools, and while
but twenty years of age is a success-
ful teacher. Both her father and
grandfather were Maine lawyers, the
latter having served in congress
with Abraham Lincoln.

The Obdurate Judge

Taking exception to the opinion
of Mr. Winter that they had bet-
ter wait a while, the young people se-
ized upon his absence on a deer hunt-
ing trip to tie the "knot that binds."
They went to Judge John Brindley,
where they were astounded to learn
that there is a lot of red tape to
the otherwise delightful process of
taking a wife. Anyway, the mean old
judge wouldn't marry them because
the court took judicial notice that
Mr. Winter was away, and while His
Honor felt that Mr. Winter deserved
the fate of those who don't under-
stand that "youth will be served,"
and are really old enough to mind
their own business, he couldn't with-
dignify go further than to hint that
in Winona the laws are more oblig-
ing.

"They are splendid young people,"
said Mr. Winter today. "I couldn't
have chosen better for either of
them. I wanted them to be boy and
girl a while longer, but they want-
ed to be grown-ups. Twenty never
seems so old as when you're twenty,
and I guess the wisdom of twenty is
sufficient unto the needs of twenty.
Anyway, the strategy of twenty is
too much for the wisdom of fifty-
five."

EXAMINERS TO MEET

MADISON, Wis., Nov. 22.—The

TURKS GAIN HOPE AND RENEW FIGHT

Armistice Lasts One Day
Before Sultan Turns
Down Peace Terms
and Orders War

BULGAR CABINET MEETS HASTILY

Attitude of Porte Makes
Them Think Moslems Not
So Badly Beaten; May
Modify Terms

LONDON, Nov. 22.—Officialdom
here was completely nonplussed to-
day by the unexpected failure of the
peace negotiations between the Turks
and the Balkan allies.

It had scarcely occurred to anyone
as possible that hostilities would be
resumed. That there might be trou-
ble over the division of the sultan's
European territories was recognized,
but failure of the plans for a cessa-
tion of the already existing struggle
had scarcely even been considered.

The amazing part was the sudden-
ness of the change in attitude. Wed-
nesday morning they were im-
ploring the powers to act quickly in
persuading the allies to grant them
terms. Thursday night they were an-
nouncing loftily that the allies' pro-
posals were not to be thought of and
that Nazim Pasha had received or-
ders to begin fighting again imme-
diately.

Hope is Revived

Military men said today that the
situation now seems to be plain
enough. The Turkish government
believed everything was lost and
grew desperately anxious to make
terms which would at least prevent
the enemy from occupying Constanti-
nople. With the allies in the act of
agreeing to negotiate, Nazim Pasha
inflicted a severe reverse on the Bul-
garians, at Chatalja and the govern-
ment, it hopes instantly revived, de-
cided to go on with the campaign.

The armistice lasted one day.
War experts were agreed that the
sultan has lost western Turkey for-
ever, but they expressed the opinion
that in the east the outlook is far
from hopeless for him, while for the
Bulgarians it is very serious indeed.

Assuming that the Ottoman forces
can hold their own at Chatalja, which
the authorities said today appeared
likely, they can continue strengthen-
ing themselves indefinitely from
Asia. The Bulgarians have already
put forth every ounce of fighting en-
ergy they possess. The Servians and
Greeks may come to their aid, but it
is doubtful if this will offset the sul-
tan's reinforcements.

To make the situation worse, win-
ter will soon make the allies' position
at Chatalja impossible to maintain.
Unless they can carry the Chatalja
lines within a few days, the best au-
thorities declared today they will
have to retreat, perhaps across the
frontier.

Bulgar Cabinet Meet.

PARIS, Nov. 22.—The Bulgarian
cabinet met hurriedly today to con-
sider modifying the peace terms of-
fered to the Turks, it was stated in
a message from Sofia. The news seem-
ed to indicate that the sultan is less
completely beaten than was suppos-
ed. Whether he will now consent to
reopening negotiations was deemed
doubtful.

Allies Aid Bulgaria

ATHENS, Nov. 22.—The Greek
government ordered 30,000 of its
troops in western Turkey today to
Chatalja to help the Bulgarians. It
was expected Serbia will send a
strong force. It was rumored that
the Greek fleet will speedily attempt
to force the Dardanelles.

Austria Calls Reserves

LONDON, Nov. 22.—Austria called
six more corps of army reserves
to the colors today, according to a
telegram from Vienna to the Ex-
change Telegraph company.

USKUB, Nov. 22.—Prince Arsene,
brother of King Peter of Serbia, was
badly wounded in the battle, which
preceded the capture of Monastir, it
was learned here today.

BERLIN, Nov. 22.—Francis Fer-
dinand, heir to the Austrian throne,
was warmly greeted at the railroad
station on his arrival here today by
the Kaiser, Foreign Minister Kider-
lein-Waechter and a brilliant staff.
He came to discuss the Balkan situ-
ation.

Unconfirmed reports were current
here that Austria is about to make
a naval demonstration against Ser-
bia in Albanian waters. Austrian
troops are moving toward the Rus-
sian frontier, according to the Tage-
blatt, evidently in readiness to in-
vade the czar's territories in the
event of Austria's resort to force
against Serbia and Russia's inter-
ference in the Servians' behalf.

CONSTANTINOPLE, Nov. 22.—
The Turkish warship Hamideh was
at any rate not sunk by the Bulgari-
ans as they claimed, for it was tow-
ed into port and docked here today.
The vessel evidently had been tor-
pedoed, however, and was badly
down by the stern.

SUM UP FARLEY CASE

COLUMBUS, Ohio, Nov. 22.—The
final scene in the dramatic flight of
Miss Cecelia Farley to escape the
electric chair for the murder of Al-
vin Zollinger was staged today when
counsel summed up the case. Argu-
ments to the jury contained many
quotations from the Bible.

BELMONT WEDS GIRL OF CHORUS, RUMOR

NEW YORK, Nov. 22.—
White light gossips were busy
with the story that Raymond
Belmont, second son of August
Belmont, financier, had yester-
day married Miss Ethel Lo-
raine, show girl, who formerly
worked at the Winter Garden.
Information given to newspa-
pers last night said that the
pair were married either in
Brooklyn or Connecticut and re-
turned to New York for a wed-
ding supper. No record of the
license nor a wedding ceremony
could be found, and the suppos-
ed bride was not at her apart-
ments.

PRISONER TRIES TO A KILL PATROLMAN

August Yehle Close to
Death; McHugh Swings
Ax at His
Head

TO BE EXAMINED FOR INSANITY

Policeman Cowes Prisoner
with Threat to Shoot;
Wife Also Ar-
rested

August Yehle, the oldest patro-
lman on the La Crosse police force,
narrowly escaped death yesterday af-
ternoon, when in attempting to ar-
rest Thomas McHugh, 418 Avon
street, the latter attacked him with
an ax.

According to the story told by Pa-
trolman Yehle, McHugh stepped into
a pantry as he told him he was un-
der arrest. Yehle followed and a
second later heard a swishing sound
as an ax in the hands of McHugh
flew past within a few inches of his
head. Still retaining his hold on the
handle of the ax, McHugh followed
Yehle into the room and continued
swinging at his head, while the pa-
trolman attempted to draw his re-
volver, dodging the ax in the mean-
time.

A heavy overcoat handicapped Mr.
Yehle in procuring his revolver. As
he succeeded in drawing it from his
hip pocket it caught on a key chain
and dropped to the floor but he re-
covered it before McHugh was able
to reach it. His threat to blow Mc-
Hugh full of holes if he didn't drop
the ax, brought submission from the
prisoner.

Several times during the one sided
duel Yehle avoided the savage
blows of McHugh by a small margin
and the ax slightly grazed his shoulder
as he attempted to draw his re-
volver.

Patrolman Daniel Deneen stood in
the doorway, a silent witness of the
near-tragedy but was unable to use
his revolver for fear of shooting his
brother officer. McHugh is believed
to be insane and may be examined
by physicians for insanity.

He was arrested yesterday morn-

NOT LAZY NOT STUPID

Friends Fussed at Her For Being Lazy, When All She Needed Was Cardui, The Woman's Tonic.

Springfield, Tenn.—In an interesting letter from this place, Miss C. L. Fuquay writes as follows: "I was taken sick at my sister's home, got up too soon and came to my home, which threw me into chills. This resulted in womanly troubles.

I was without either energy or appetite, and my friends fussed at me for my stupidity, and said I was lazy.

But anyhow, I grew worse, and after taking to my bed, I was under the treatment of a physician for over a month, without relief.

At last my mother bought me a bottle of Cardui, the woman's tonic, and before the first bottle was gone, I was eating heartily, and before I had taken all of four bottles, I was O. K. in every way.

Cardui is what brought me relief, and I hope every woman who suffers as I did, will give it a trial."

Cardui goes to the weak spots, and helps to make them strong. It is for the weak, tired, nervous, irritable women, who feel as though everything they were wrong, and need something to quiet their restless nerves, and strengthen their worn-out systems.

Thousands of women now enjoy good health, as a result of taking Cardui. Why not you? Try it.

CONDUCT FRUIT FARMS

MADISON, Wis., Nov. 22.—Assistant State Superintendent J. B. Borden and State Rural School Inspector W. E. Larson, with Principal Pratt of the Crawford county training school, are conducting a fruit farm at Gays Mills, adjoining the trial orchard of the state university. They are attempting to put into practice their ideas on horticulture and to demonstrate that Wisconsin has just as good orchard lands as the west.

ALL IN READINESS FOR SCHOOL DEBATE

Orators of High School Societies to Take the Platform Tonight

All is in readiness for the annual inter-society debate between Wendell Phillips and Lincoln Douglas debating societies of the high school. This is the sixth annual debate these two societies have held, all of them having been won by the L. D. D. S. The W. P. D. S. are working hard to overcome the big lead their opponents have obtained and are prepared to take the platform tonight and present an array of arguments that will take a great deal of work for their opponents to refute. The L. D. D. S. boys are just as determined that their opponents shall not get the best of the debate and are ready to present a line of talk that is convincing.

Figlie, Minshall and Goldberg will uphold the affirmative for the W. P. D. S. and Webb, Witcraft and Walker will uphold the negative for the L. D. D. S. Two of the negative men were on the interscholastic teams of last year and therefore they have the advantage of experience and preparation. The judges will not be announced until the debate takes place but they are thought to be prominent men in town.

Several more interesting articles have been added to the high school museum, among them being a piece of mosaic work from the gable of the Leland Stanford university chapel which was destroyed by the earthquake several years ago. An axe found on the local bluffs with several other stone implements of the Indians were given by Gerald Hyde. This, with the things obtained yesterday and the large collection loaned by Miss M. Congdon from Greece, make a very good start for a nice museum.

The high school students and especially the football team are having a big laugh at the expense of the Fort Atkinson high school football team, who are claiming championship honors after the great defeat given them by the locals. The authorities say that everything was fully agreed upon by the two schools before the game and that there is no cause for the charges made by the Fort team.

Inspired Famous Hymn.

"Jesus, Lover of My Soul," is a hymn around which many traditions and sacred associations cling. The story connected with its origin may be legendary, but it is no less beautiful. Its author, Charles Wesley, was sitting at his desk by an open window when a bird pursued by a hawk flew in. The bird was saved, for the hawk feared to follow it. The incident inspired Wesley to write his famous lines.

Beauty Hint.

Red elbows, says the Evening News, are happily a thorn which may be removed. Saw off the red elbows, soaked them in a bleaching mixture of unslaked lime, steep them in carbolic acid, and they will never trouble you again. Cold feet may be treated similarly.

Women in Suicide Epidemic.

No fewer than five suicides, all of women, were committed in Paris one recent day. A mother and her daughter took cyanide of potassium because they had had no food for three days. The daughter was a lyric artist. A young Austrian girl of 18 threw herself onto the rails as a train was entering the Marbeuf station of the Metro. A woman of 40 took arsenic, and the fifth, who was 27, shot herself through the heart.

Some people are down on their luck and some others never have any to be down on.

Man is the lord of creation; woman the lady of recreation.

The Doctor's Advice

by Dr. Lewis Baker

The questions answered below are general in character, the symptoms or diseases are given and the answers will apply to any case of similar nature.

Those wishing further advice, free, may address Dr. Lewis Baker, College Bldg., College-Ellwood Sta., Dayton, O., enclosing self-addressed stamped envelope for reply. Full name and address must be given but only initials or fictitious name will be used in my answers. The prescriptions can be filled at any well-stocked drug store. Any druggist can order of wholesaler.

tract. Could you give me a remedy?"

"Answer: I can give you a remedy that I am sure will cure you and one that is absolutely harmless and pleasant to take. Make a syrup with one pint of granulated sugar and one-half pint of boiling water, put on the fire and let it come to a boil, then cool and add the contents of a 2 1/2 oz. bottle of essence mentho-lar-e, which you can purchase at any drug store, and you will have a pint of the finest cough syrup on the market today. It is about eight times cheaper than ordinary labeled cough medicines and will last much longer.

"Mary" says: "I would like something for indigestion. I cannot eat and am cross and irritable all the time. I fear it will cause appendicitis."

Answer: Ask your druggist for tablets triopetine and take according to the directions. These are pink, white and blue tablets and are to be taken morning, noon and night respectively. This will cure your indigestion and prevent appendicitis.

"Nervous Dorothy" writes: "I have no appetite whatever. I cannot sleep at nights and my nerves are in a terrible condition. Can you tell what would help me?"

Answer: The following has helped thousands who suffer as you do. Get 5 ozs. syrup of hypophosphites comp. and 1 oz. of tincture cadomene (not cardamon) and take a teaspoonful before meals. This tonic will restore your nervous system and you will be strong and well within a very short time.

"Carl" writes: "Can you prescribe anything for one that is too fat. I have tried several remedies but they do not help."

Answer: I would not advise the use of the ordinary tablets and pills for reducing the weight, but here is a safe, quick and sure remedy. Get 5 ozs. of aromatic elixir and 1 oz. of glycol arbolen. Mix by shaking well and take a teaspoonful after meals for the first three days and then double the dose. A reduction of a pound a day is not unusual after the first week or two.

"Q. R." writes: "Please advise something to take that will cure chronic constipation. I have suffered for years and have used many kinds of pills, but they do not cure."

Answer: I think most of the illness is caused by chronic constipation. If the following tablets are taken regularly they will gradually effect a cure as they stimulate the liver and bowels into healthy action. They are packed in sealed tubes and are called three grain sulphur tablets (not sulphur tablets) with full directions for taking. They will also purify the blood and tone up the entire system. If you are dyspeptic, take tablets triopetine. These two medicines you will find in any up to date drug store.—Advertisement.

WICKERSHAM REAPS WHAT HE HAS SOWN

Mr. Wickersham called off the hounds of the monopoly plans of the Grand Trunk and New Haven systems. He is accused of having done so "at the request of Rockefeller and Morgan." He replies that he discontinued the probe in order to avoid giving immunity baths to the men higher up, access to the books having been arranged outside of court. The New Haven has been the center of so much graft and injustice that people look with suspicion upon all its operations. Mr. Wickersham has been associated with men his relations with whom have made the public skeptical. If he is acting in good faith in this case, he is the victim of circumstances over which, in the past, he might have exerted some control.

VALUE OF COLLEGE MEN IN BUSINESS

It seems that the average Princeton graduate earns more than \$6.00 when he leaves the university. Instead of \$6 it is \$16 which he receives. The reading public will recall that a few months ago a wide discussion of the financial value of higher education was caused by the report that the graduates of this great eastern institution could command no more than a dollar a day on their graduation. The mistake, it is said, was due to a typographical error.

Whether the figure is \$6 or \$16, however, the fact remains that a man just out of college is not immediately a valuable economic asset. It takes time for him to develop his full powers. While he is backing up his theoretical knowledge with the necessary practical experience his services can command little more than those of the ordinary unskilled worker. The chances are, though, that after he has acquired the practical end of his business he will rise more rapidly and rise higher than the man who lacks college culture.

What is true of the college man is true of most men who are in a transitional stage of mental development. They are not worth a great deal until they "find their pace." Then if they have training, whether that training was acquired within or outside of a university, they rise rapidly. With every year of work they become more valuable to employers because the habit of making steady intellectual advance has become fixed. They could not stand

still if they wanted to, but must push on to a bigger and broader development.

It is because college training is an excellent tool for bringing about this result that it is so highly esteemed in spite of the fact that at the start of the race those having it do not get more than others. The spirit by which men obtain efficiency is not confined to the university. In fact, one may graduate with all the honors obtainable and lack it, while another who never saw the inside of an institution of higher learning may have it naturally and may acquire it.

WHO LED ROSENTHAL TO THE SLAUGHTER

The Washington Post raises an interesting question in the following discussion of the Rosenthal case:

"Who steered Herman Rosenthal to his death?" observed F. J. McGuire, a well known New Yorker, at the Raleigh. "In the trial of Becker and the four gunmen no evidence has yet been produced to show how 'Bridgie' Webber learned that Rosenthal was in the restaurant of the Hotel Metropole at 1:55 on Tuesday night, July 16. That is to the gunmen and gangmen of New York one of the mysteries in the Becker case. It has been suspected that District Attorney Whitman can answer the question.

"All those familiar with the methods of gun fighters in New York know that a victim usually is 'steered' to a convenient place for slaughter, just as confidence men steer their victims to their 'joints.' Rosenthal was a nervous, energetic and industrious gambler, who could not sit still, except when attending to business, for more than thirty minutes, yet very soon after the gunmen, now on trial before Justice Goff, had reached the rendezvous in 'Bridgie' Webber's poker room at 104 West Forty-second street Weber went out to find the victim. He located Rosenthal after five minutes' search, and the gunmen were driven two blocks to the Metropole, and within twenty minutes after Weber had gone to look for the victim he was assassinated.

"The men who have confessed—Weber, Jack Rose, and Harry Valon, of course, know all about this feature of the case, yet the district attorney has not asked the question in two trials to bring out the evidence, nor has he presented this phase of the case to the grand jury. Many persons are wondering who was the person that lured Rosenthal to his death, as he must have been lured."

The republican campaign manager who voted by mail in Kansas might have saved a two cent stamp just as well as not.

Doubtful Altitude

Alton B. Parker during the democratic state convention at Syracuse said of a congressman who had severed his connection with a certain clique of bosses:

"There's some dispute as to whether the man left this clique on ethical grounds or whether he was kicked out."

"The dispute reminds me of a conversation between two women in a fashionable restaurant.

"Mrs. Blanc," said the first woman, over a seasonable dish of turkey and cranberry sauce, "isn't in your set any more, is she?"

"No, poor thing! She had to drop out," was the reply.

"The first woman ordered two portions of pumpkin pie and resumed.

"Drop out? Why she told me she climbed out."

A Sweet Revenge

A woman entered a railway train crowded with winter tourists and happened to take a seat in front of a newly married couple. She was hardly seated before they began making remarks about her, which some of the passengers must have heard. Her last year's bonnet and cloak were fully criticised with more or less giggling on the bride's part, and there is no telling what might have come next if the woman had not put a sudden stop to the conversation by a fit of clever, feminine strategy.

She turned her head, noticed that the bride was considerably older than the bridegroom, and, in the smoothest of tones, said:

"Madam, will you please have your son remove his feet from the back of my chair?"—National Monthly.

Quips and Cranks and Wanton Wiles

Cheer Up

I'm not afraid of hoodoos,
That's very plain to see,
I was born on a Friday,
The thirteenth. Yep, that's me.
I walk right under ladders,
I spill salt at my will.
I've also smashed a mirror
And I'm around here still.

Around my chair I amble

The wrong way every time.
When I am playing poker,
I have contempt sublime
For people superstitious,
I never knock on wood.
I never pick up a horseshoe,
And don't see why I should.

I don't believe in bad luck,

It is a foolish thing.
Whatever you imagine—
That's what your fate will bring.
There's no use looking forward
To sorrow you'll allow,
If trouble's going to get you
'Twill get you, anyhow.

Not a High Climber

Colonel Faulkner of Texas was walking along the street one spring morning when he met an old dandy proceeding slowly on his way to the village, whither he was bound to secure his stock of tobacco for the coming week.

"Well, Uncle Primus, how are you?" asked the colonel.

"Yes, sir; yes, sir, Marse Faulkner, yes, sir. Ah is feelin' good dis spring. Ah suttinly is feelin' fine. Ah doan remember as ah ever felt no bettah in mah life, but sum way ruther ah seem to be gettin' tu do tahm of life w'en ah's lookin' fer de low spots in de fence."

Never On

Senator Penrose, on a visit to Atlantic City, rang for a bellboy to take a telegram, but it was not until the twelfth or thirteenth ring that the boy appeared.

"You've been a long time coming," said the senator.

"Yes, sir," said the boy. "You see, sir, it's our dinner hour."

"I know why you bellowers are called buttons," he said. "You're always off."

Odd Expressions Overheard

"Say! if brains were ink you wouldn't have enough to dot an 'i.'"

"This steak cuts like an infringement on the Goodyear patent."

"Jones is the heaviest depositor in our bank—he weighs over three hundred pounds."

"Gee! that girl's smile would ring a doorbell in the next block!"

"Credulous! Why, that woman would believe a dentist when he said he wouldn't hurt her."

"When I arrived at the house there was the minister sitting on a chair and three ladies."

"With his income he has no more excuse for being in debt than the letter 'b.'"

"Blank is such a loafer he actually rises early so that he can put in a full day of it."—Boston Transcript.

Fixing Uncle John

The small daughter of the house was busily setting the table for expected company when her mother called to her:

"Put down three forks at each place, dear."

Having made some observations on her own account when the expected guests dined with her mother before, she inquired thoughtfully:

"Shall I give Uncle John three knives?"—Toronto Mail and Empire.

Doctors Said He Would Die

A friend's advice saves life

I wish to speak of the wonderful cure that I have received from your noted Swamp-Root, the great kidney and bladder cure. Last summer I was taken with severe pains in my back and sides. I could not breathe without difficulty. I tried all the different doctors from far and near, but they said it was no use to doctor as I would die anyway. I was at the end of my rope and was so miserable with pain and the thought that I must die that words cannot tell how I felt. One day a friend told me of the wonderful help she had received from Dr. Kilmer's Swamp-Root. She gave me one of your pamphlets which I read and determined to try Swamp-Root. After taking half a bottle I feel better. Have now taken ten bottles and am well as I ever was, thanks to Swamp-Root. I wish to tell all suffering people that have kidney, liver or bladder trouble, that Dr. Kilmer's Swamp-Root is the best medicine on the market.

All persons doubting this statement can write to me and I will answer them directly.

Yours very truly,
CLYDE F. CAMERER.

RESTORE GRAY HAIR TO NATURAL COLOR

By Common Garden Sage a Simple Remedy for Dandruff, Falling, Faded, Gray Hair.

The old idea of using Sage for darkening the hair is again coming in vogue. Our grandmothers had dark, glossy hair at seventy-five, while our mothers are gray before they are fifty. Our grandmothers kept their hair soft and glossy with a "Sage Tea," which also restored the natural color.

One objection to using such a preparation was the trouble of making it. This objection has been overcome by the Wyeth Chemical Company of New York, who has placed on the market a superior preparation of Sage, combined with Sulphur and other valuable remedies for dandruff, itching scalp, and thin, weak, falling hair.

The beauty of the hair depends more on its rich, even shading than anything else. Don't have dry, harsh faded hair, when a simple, harmless remedy will bring back the color in a few days; and don't be tormented with dandruff, itching scalp and loose, falling hairs. Wyeth's Sage and Sulphur Hair Remedy will quickly correct these troubles, and give color, strength and beauty to your hair.

Get a fifty cent bottle from your druggist today, and prove this to your own satisfaction. All druggists sell it, under guarantee that the money will be refunded if the remedy is not exactly as represented. O. T. Erhart.—Advertisement.

THE MARRIAGE OF CAPTAIN KETTLE

By G. J. Cutcliffe Hynde.
Copyright The Bobbs-Merrill Co.

On the upper bridge the Point Lynas pilot in a panic rang his main engines to "full speed astern," and the Norman Towers shivered and lurched herself to a sudden standstill in the middle of a lakelet of muddy foam. To her shot up a small open boat, under lug-sail and jib, attracted by an arm wave from the mate. The two shabby men in her looked up keenly.

Mr. Kettle, the Mate, with a rope in his hand, clapped his feet against the ship's side, and ran down it nimbly to the boat, jumping on to her gunwale exactly as she rounded up alongside.

"You're nippy," said the shabby man at the tiller as he shot the boat into the wind.

"I am. Now, away with you ashore my lad, and drop me at the nearest telegraph office."

"Got the price of your passage on you?"

"You can put it down to the firm. I guess it's for their benefit I hailed you."

"Seems to me there's trouble on board. The old junk don't steer. There's the Old Man on the top deck laying down the time of day to the pilot, and that bit of skit on the poop's holdin' out beseechin' arms to some one in this boat that I don't think's me. Mister, by your leave, I'm going to run alongside again to see if the firm ashore will really O. K. your bus fare to that telegraph office, or if there's some one who'll give a bit more to have you put back on board. Hi, mister, put that down."

Mr. Kettle, armed with a stretcher, was standing up in the boat. Said he: "If either of you two ducks don't carry out my orders exactly as they are given, I'll knock one or both of you overboard, and sail your rotten old tub myself. D'ye hear me?"

"I suppose I do."

"Say, 'sir,' when you're speaking to an officer. D'ye know your course, or shall I set it for you?"

"The ebb's making pretty hard still, but it'll be slack water before we're across"—mumble—mumble—"so I'd better take you on to Foston, sir."

"Why there? It isn't the nearest."

Mr. Kettle noted that the man in the bows looked surprised.

"It's quickest, sir, with this wind and tide. Isn't it, Alfred?"

And Alfred, from the bows, glibly perjured himself, and said they'd be in at Foston telegraph office an hour earlier than they could reach any other.

Mr. Kettle did not believe them but he let it rest at that. After all, his telegram, which was merely a message announcing arrival to Mrs. Farnish, was of no vast importance, and so he set himself to smoking his pipe, and thinking gloomily over the mess he had made of the present, the definiteness with which he had lost Miss Chesterman, and the hash he had made of his future.

"Hey! take away my new master's ticket, as sure as there are pips in little apples," he told himself, "and it's China Seas for mine now, and a pig boat with a coolie crew and a yellow owner."

Night fell on the tawny Mersey, and the ships' lights kindled in the purple gloom and threaded through it at a decorous pace, or swung rhythmically on a station. A wind from the north and east blew chill across the face of the waters, and the outgoing and incoming steam traffic booted helm signals in forty keys. The cool, damp, muddy river-smell, with its tinge of sewage, came to him like an old friend.

"Rice, chopsticks, and pigtailed tor mine," Mr. Kettle reminded himself again. "But they say the Chinese girls are fine." And then, thumping the dew-pocked gunwale with a hard fist—"No, I'm blown if I do," he swore.

"The beastly British Board of Trade shan't run me out of my profession, simply because I've done my duty in that state of life to which it pleased the Lord to call me. I'll win out in spite of all their teeth, and command British ships for white owners on the decent seas. And I'll marry."

At that point, apparently from the parting of its halyards, the lug-sail descended suddenly and enveloped Mr. Kettle in its damp dew-sodden folds. The yard also hit him on the head, and for an instant he was driven below the gunwale level. But it took more than a trifle like that to knock a Western Ocean mate out of time. He was up again on the instant.

"You clumsy swine," he bawled from beneath his covering to the boatman. "I'll teach you to rig a boat. Clear away this wreck!"

He sat up, and the top of his head under the sail showed as a round dome beneath the moonlight. On it, at the full strength of the steer-man's arm, descended the oaken tiller, and Mr. Kettle subsided as a bull does when it is poleaxed.

Said Alfred, the shabby man in the bows, making no effort to move or help: "You've done it now, Arthur. When you signed to me to cut the halyards, I never thought you meant murder."

"Murder he blowed," retorted his friend. "I don't if I've put him to sleep for an hour. You'll see he'll wake up again in sixty minutes punctual to the clock, and as full of ginger as he can stick. He's a hard case, mate, this one, if ever I saw such a fellow, and he'll carry a skull like a cannon-ball, or he'd have had it fractured long before this. Now we'll just inspect his bank balance. To be true to his type he should carry the bulk of it in a money belt next

TO OUTLINE TAX PLANS

MADISON, Wis., Nov. 22.—(Special.)—Within the next few days the state tax commission will begin outlining its plans for the collection of the income tax next year. Much of the preliminary work can be done before the legislature meets. It is understood that one of the changes which the commission is considering is a new kind of blank for farmers. It is proposed to make it simpler than the one originally designed enabling the taxpayer to fill it out more readily.

A Twig Off the Family Tree

Arthur was the feeble minded son of a family who were none too bright themselves. The father was often compelled to apologize for his son's remarks when they had company. One day the family entertained the minister for dinner and Arthur made a remark that called for an explanation.

"You see," began the father, "when Arthur was a small boy he ran away and wandered into the woods. A big storm came up and blew a limb off a tree, striking him on the head. Since the accident he has never been very bright."

"Arthur was silent for a few moments before he blurted out with: 'Huh! It was a darn long limb—struck the whole family.'—National Monthly.

There are various ways of learning economy, although working one's way through school probably is the most effective.

More voting is done on the strength of prejudice than on careful investigation of the issues at stake.

Every Home Needs This Fine Remedy

A Mild, reliable laxative- tonic is Something No Family Should Be Without

No well-regulated home should be without a laxative for there is scarcely a day in a family of several persons that someone doesn't complain of a headache, or sleeplessness, or show the first signs of a cold.

A laxative then becomes a necessity or what was a trifling congestion at the beginning may run into a serious cold or fever. No harsh remedy is needed, but simply a mild laxative- tonic that will make the liver active and stir up the bowels. People who have tried a great many things, and are themselves heads of families who have seen the little pills run to big ones, will tell you that there is nothing better than Dr. Caldwell's Syrup Pepsin, which you can obtain at any drug store for fifty cents or one dollar a bottle, the latter being the family size.

Among the great believers in Syrup Pepsin for constipation in old or young, and as a general household emergency remedy, are Mrs. V. M. Hull, Wycacena, Wis., and Mr. P. M. Smith, Dunkirk, Ind., and they all have a bottle of it in the home. It is scientifically compounded and its purity is vouched for. Mothers give it to tiny babies, and grown people, taking a little larger amount, find it equally effective. It is mild and gentle, pleasant-tasting and free from griping.

It does not hide behind the name

MRS. V. M. HULL

of a popular fruit or vegetable, and is absolutely free from any prohibited ingredients. Families who once use Syrup Pepsin forever after avoid cathartics, calts, pills and other harsh medicines, for these only do temporary good, are nauseous and a shock to any delicate system. Such things should never be given to children.

If no member of your family has ever used Syrup Pepsin, and you would like to make a personal trial of it before buying it in the regular way of a druggist, send your address—a postal will do—to Dr. W. B. Caldwell, 413 Washington St., Monticello, Ill., and a free sample bottle will be mailed you. Results are always guaranteed or money will be refunded.—Advertisement.

FAN-ATICAL FANCIES

It is said that Chicago has adopted the famous Minnesota shift and that Dr. Williams, coach of the Gophers, will have this play used against his team when they meet the Maroons next Saturday. This play which has been used so successfully by Minnesota for many years and which has proven a puzzle to the opponents of the Gophers was originated by Williams and it has been a great ground gainer for his eleven. Advice from Minneapolis is to the effect that Williams is now devising a defense to stop the Maroons when they use this play. It will be interesting to see both teams using this play and which is the more successful, also whether the Gopher coach can put up a defense that is capable of stopping the famous shift.

The only big game which will have any bearing on a championship next Saturday will be played by the two ancient rivals, Yale and Harvard, who will play for the eastern title. By reason of their great eleven which has swept the east and beaten all opponents, the Crimson enters the battle the favorite in the betting. According to comparative scores Harvard should be the victor as they defeated Princeton 16 to 6 while the best Yale could do against the Tigers was to hold them to a 6 to 6 tie but this cannot be taken as a means of picking the winner Saturday for Yale always comes back strong and they are particularly strong towards the last of the season. As an example of this everybody remembers the game two years ago when the Crimson had one of the strongest elevens they ever had and they were picked to run away with the game, but Yale, with a weak team, braced wonderfully and playing a desperate battle held the Eli to a scoreless tie.

This year's Harvard-Yale battle promises to be fully as interesting

and hard fought as those of previous years for while the Crimson has a championship eleven the Eli also has a great eleven and they have a small army of old stars who are back coaching the team. For the most part it seems that the old style football will rule for both teams have heavy backs who have been smashing the line for good gains. Harvard depends mostly on this kind of play smashing the tackles but using few forward passes. In Philbin, Captain Spalding and Flynn, Yale has a wonderful backfield which will make trouble for Harvard when they smash the line.

Brickley, Harvard halfback who is playing his first year of college football, is proving the sensation of the season and he is coming in for much praise from the critics. In addition to being a good line plunger, the Crimson star is a good punter and a great drop kicker as he has demonstrated in several games which he has won by the air line route. Out of seventeen attempts at field goals this season, Brickley has been successful in placing the ball over the bar eleven times.

Minnesota and Chicago meet at Chicago Saturday to decide which of these teams shall land second place this season. The Gophers appear to be the stronger team as they have shown a steady improvement since the beginning of the season when North Dakota beat them 10 to 0 and they ought to win the game. Although most of the Gopher eleven are inexperienced players their work has been wonderful and they look to be far stronger than the Maroons who seem to be weak this year. Comparative scores give the Gophers the best of it for Minnesota beat Iowa 56 to 7 while Chicago had a hard time beating that team 20 to 14. Wisconsin beat Chicago 30 to 12 and the Badgers beat the Gophers 14 to 0, these being the only teams that both the Maroons and Gophers have met.

Although Iowa is far from strong this year, the Badger coaches are keeping Wisconsin hard at work this

year and they are taking no chances of having that team beat the Cardinals in the last game of the season. The great Badger team which easily defeated all other western teams this fall and won the championship for Wisconsin for the first time since 1901 will appear together for the last time Saturday but according to the plans the regular eleven will not be kept in the game for long. It is planned to start the regulars but as soon as they get a lead substitutes are to take their places in order that the coaches may get a line on the material out of which to make a championship eleven next year.

The outlook for another championship eleven for Wisconsin next year is good for although the Badgers will lose five stars in Captain Hoeffel, Samp, Bright and Van Riper they have some good men to take their places. Gillette, the star of this year's team and generally considered one of the best quarterbacks out of the west ever saw, will be missing next year but Bellows, who has shown well this fall, will take his place. Tormey will prove an able substitute for Van Riper while there are several men who will be fighting for the two places in the line which will be open for competition. With these exceptions every member of the championship team will be back next year and with the experience they gained this fall there is every reason to believe that they will be better than ever next year.

Eddie Stavrum, for several years the star end on the high school football team, has been elected captain of the freshmen eleven at the University of Wisconsin and his chances of making the varsity team next year are considered excellent. Stavrum is considered one of the best men on the freshman team as the game which he has put up all year has been excellent. The graduation of Captain Hoeffel leaves a vacancy at left end and Stavrum will be in the race for this position along with the other candidates.

YPSILANTI REFUSES TO PLAY OSHKOSH

OSHKOSH, Wis., Nov. 22.—Ypsilanti Normal school, champion football players of Michigan, refuses to play Oshkosh Normal for the championship of the United States.

It looks now as if the game with the Whitewater Normal team next Saturday will end the local school's schedule. It was hoped to bring Ypsilanti here on Thanksgiving.

River Falls was asked to play for the state championship by the Normals, but said they have disbanded.

An effort to play another game with Lawrence college, which is the only college to beat the local eleven this year, has been unsuccessful. Beloit was also asked, but no arrangements resulted.

TWO MORE TEAMS ARE ELIMINATED

Two more games were played yesterday in the handball tournament which is being held at the Y. M. C. A. Erickson and L. M. A. Roy won three straight games from J. Dahlgren and E. Anderson while A. Erickson and E. H. Erickson won three straight games from T. Solle and A. Ulrich.

Scores of the games:

E. A. Erickson and Roy, 21, 21; Dahlgren and Anderson, 8, 7, 10.

A. Erickson and E. H. Erickson, 21, 21, 21; Solle and Ulrich, 11, 9, 20.

Next Monday Rennebaum and Kelley will play Degel and Daniels.

MAY ADD EVENTS TO OLYMPIC GAMES

NEW YORK, Nov. 22.—The American delegates to the Olympic conference have not yet received notice of the proposed gathering of delegates called by the Swiss federation for May, 1913, at Lausanne, Switzerland, to consider changes in the rules of the Olympic games. The American delegates, E. J. Wendell, Prof. Sloane of Columbia university and Addison Armour are not certain that the United States will receive an invitation to this meeting. The Greeks want the twenty-four pounds stone throwing contest added, Germany wants the two-handed bar bell put back on the card, and England wants a penalty established for false starting in the sprints.

MINNESOTA ELEVEN GOES TO CHICAGO

MINNEAPOLIS, Minn., Nov. 22.—Accompanied by Track Coach Dick Grant, the cross country team, basketball Coach Dr. Cooke, and Football Mentor Dr. Williams, the Minnesota eleven left last night for Chicago where the Maroons will be played Saturday. A crowd of 1,500 students bade farewell to the team at the depot and a large number is expected to attend the game.

YALE TEAM READY FOR TITLE GAME

NEW HAVEN, Conn., Nov. 22.—Short signal drills, final instructions by the coaches, and general loafing comprised the program today of the Yale eleven in this city, and the Crimson warriors at New London, in preparation for the game tomorrow on Yale field. All the regular Blues are in excellent physical condition. The Harvard men seemed fit as they went through signal drill at Armstrong Park in New London today.

SCOUTS STORY OF FORT'S PROTESTING

Principal McCormick Declares Story of Kick Does Not Come from Official Source

WERE SATISFIED WITH TREATMENT

Professor Asserts that Fort Atkinson Team Thought They Were Well Treated Here

"I have heard nothing whatever in an official way from the Fort Atkinson high school authorities in regard to the protest of the game which that football team lost to La Crosse, 46 to 7, three weeks ago," said Professor B. E. McCormick of the local high school this morning. "For this reason I am of the opinion that this protest came from some other source than the high school at Fort Atkinson for I know that they have no intention of protesting the game."

"When he returned home after the game, the Fort Atkinson manager expressed himself as being entirely satisfied with the treatment which the visitors received here. At the teachers' convention at Milwaukee I met the principal of the Fort Atkinson high school and the faculty manager and they said nothing whatever about protesting the game and they had no fault to find so I cannot see where this protest comes from."

"In regard to the claim that the officials were local men and so La Crosse benefited in this way, I wrote the Fort Atkinson authorities asking them to name officials. They replied that our officials would be satisfactory to them so I named Professors Moore and Spence and they agreed to this arrangement."

"We submitted our credentials to them and they were satisfactory. There is not a man on our team who is over the age limit so we have no ineligible players for them to protest. All our men are eligible to play."

"The crowd did not overrun the field and the players were not hidden when they received forward passes. Fort Atkinson never noticed that Garder was missing on the kickoff in that game and they cannot protest on these grounds. I think that the story of this protest comes from some other source than the Fort Atkinson high school authorities as I do not think they intend to protest the game."

BADGER PRACTICE IS LAST OF YEAR

MADISON, Wis., Nov. 22.—The last football scrimmage of the year was indulged in yesterday afternoon at Camp Randall by the Badger football team. The practice was short but exceedingly snappy and bodes ill for Iowa if the team keeps up the gait they showed yesterday. The scrubs opposed the varsity but could make little headway against them. The subs for the first team were also given a chance during the session, Van Ghent going in at tackle, and Tormey, Berger and Bellows performing in the backfield. The regulars plowed through the scrub line for long gains, and on defense were invincible.

This is the last regular practice of the year. The team leaves today for Iowa City, where a short practice before the game probably will be held. The team and the rooters are fairly confident of a Wisconsin victory, but are not holding the Hawkeyes too cheaply. The coaches have impressed on the minds of the players that there must be no repetition of the Chicago disaster this year, and the men will fight hard for a win.

LOS ANGELES, Cal., Nov. 22.—
Carl Reidelbach, the dynamiter who
threatened to blow up the central po-
lice station here, is sane in the opin-
ion of Prof. James Fisher of the
neurology department of the Univer-
sity of southern California, and Dr.
Charles Carter, police surgeon. Both
of these men made a careful examina-
tion of the man.
The police investigation of the case
develops the fact that the dynamite
used was 80 per cent gelatine, dated
November 21, 1911. It is manufac-
tured only on special order. It is
suspected that there is more behind
Reidelbach's attempt than is now ap-

MAN IS HELD FOR SHOOTING HIS PAL

Body of Hunter Discovered
Hastily Buried in
a Shallow
Grave

BUFFALO, N. Y., Nov. 22.—After
an all night and day search Sheriff
Bauer and a posse yesterday after-
noon found the charred body of
Frank Bentley, 29, buried in the
woods near Java, Wyoming county.
He had been missing since Saturday
and Alphonse Prince, who accom-
panied him on a hunting trip, is held
in the Warsaw jail on an open
charge.

When the body of Bentley was
found, most of the clothing had been
burned off. A gaping wound in the
chest showed the cause of death. The
body was buried under about a foot
and a half of earth and the top of
the grave was covered with leaves.
District Attorney Knight question-
ed Alphonse Prince in the Warsaw
jail. He admitted being with Ben-
tley Saturday and hunting with him.
He insisted, however, that he left
Bentley alive and all right when he
tired of hunting. At that time
Prince said Bentley told him he was
going to keep on hunting. A pair of
overalls worn by Prince have been
taken possession of by the authori-
ties. Stains on them are thought to
be blood.

Sheriff Bauer has taken into cus-
tody Louis and Harry Weber, broth-
ers-in-law of Prince. No charge has
been placed against the men, but
they will be questioned by District
Attorney Knight. The police are
trying to ascertain a possible motive
for the crime.

ALASKA CHILDREN FARM AT SCHOOL

Bureau of Education Re-
ceives Basket of Prize
Products from
Klukwan

The school farm movement has
penetrated Alaska. From the school
at Klukwan, in southern Alaska,
comes a basket of potatoes, turnips,
carrots and other vegetables con-
signed to the United States bureau of
education. Several of the products
are of a size and weight that would
be remarkable in a far more propit-
ious climate than that of Alaska.

The school at Klukwan is one of
81 public schools for natives main-
tained by the bureau of education in
Alaska. In a number of these gar-
dening is carried on with distinct
profit to the school and the com-
munity. The teacher from Shung-
nak, within the Arctic circle, reports
that he supervised the making of 17
gardens and four large school gar-
dens and adults in soaking seed,
planting, cutting potato eyes, spad-
ing, hoeing, raking, thinning, weed-
ing, transplanting, watering—in fact,
in all the operations necessary for
successful gardening. One-third of
an acre he set apart as a model gar-
den; on this he experimented with
different products and eventually ob-
tained a good supply of vegetables
for use in cooking cases. Radishes,
turnips, peas, rutabagas, carrots,
beets, cabbages, potatoes, lettuce,
kohl-rabi, parsnips and a few other
vegetables, did well in this arctic
garden; onions, beans and cucum-
bers were unsuccessful.

At Eagle, Fort Yukon, Unalaska
and Klawock similar results in gar-
dening are reported. In Unalaska the
school farm at first contained only
a few plants of rye and wheat, and
some kitchen vegetables, but this
year a more ambitious experiment
was made. The children not only
worked a school garden in which
each had a patch of his own, but
also cultivated a larger farm at some
distance from the school.

Although the season is short in
these Alaska settlements, the vege-
tables often attain good growth. In
Klukwan the temperature ranges
from 81 in summer to 27 below zero
in winter. At Klawock the children
were able to begin preparing their
ground by the first of April, and else-
where many vegetables were in by
May.

The work in school gardening il-
lustrates the general principle on
which the government is working in
the schools of Alaska—that educa-
tion shall be something more than
mere schooling; that it shall be pre-
paration for the life the natives
have to lead. Sewing, cooking and
carpentry are prominent subjects in
the schools. "The education of the

natives of Alaska," says a recent re-
port of the bureau of education, "is
conceived as meaning their advance-
ment in civilization. Superintendents,
teachers, physicians and nurses must
regard themselves as social workers
striving to elevate the native races
intellectually, morally and physical-
ly."

SNEAD ATTORNEY FIRED
FORT WORTH, Texas, Nov. 22.—
Cone Johnson, noted Texas orator

and attorney for John Beal Snead in
his trial for the killing of Captain
A. G. Boyce, was fined \$100 for con-
tempt by Judge Swayne today. John-
son insisted on asking W. E. Far-
well, banker of Dalhart, Texas, if
Captain Boyce had not honored Al
Boyce's check for \$1,000 to help him
elope with Mrs. Lena Snead. The
jury was withdrawn while the point
was argued and Judge Swayne ruled
that the question should not be ask-

ed. When the jury returned, John-
son immediately put the question,
while Judge Swayne, vigorously
pounded upon his desk.
Johnson smilingly paid his fine on
the spot.

HAIR STOPS FALLING, DANDRUFF DISAPPEARS—25 CENT "DANDERINE"

Save your Hair! Beautify it! Invigorate your scalp!
Danderine grows hair and we can prove it.

Try as you will, after an applica-
tion of Danderine, you cannot find
a single trace of dandruff or a loose
or falling hair and your scalp will
not itch, but what will please you
most, will be after a few weeks' use,
when you will actually see new hair,
fine and downy at first—yes—but
really new hair—growing all over
the scalp.
A little Danderine now will im-
mediately double the beauty of your
hair. No difference how dull, faded,
brittle and scraggy, just moisten a
cloth with Danderine and carefully

draw it through your hair, taking
one small strand at a time. The ef-
fect is immediate and amazing—
your hair will be light, fluffy and
wavy and have an appearance of
abundance; an incomparable lustre,
softness and luxuriance, the beauty
and shimmer of true hair health.

Get a 25 cent bottle of Knowl-
ton's Danderine from any drug store
or toilet counter, and prove to your-
self tonight—now—that your hair is
as pretty and soft as any—that it
has been neglected or injured by
careless treatment—that's all.

OPEN BIDS ON PUMPS

WATER PLANT CONTRACTS TO BE SUBMITTED TO ALVORD AND BURDICK FOR APPROVAL

The bids for contracts on supplies and work for the new water plant, including pumps and machinery at the stations, will be opened by the board of public works today. This concludes the bids on contracts except probably a few minor jobs that may appear later. The bids will be submitted to Alvord and Burdick, according to their contract, for approval before the contracts are awarded to any of the bidders. After the approval of the engineering firm that has the construction of the water plant in hand, the bids must be approved by the board of public works and the common council.

The bids which will be opened today are on work as follows:

(F) Furnishing and erecting upon its foundation one (1) eight (8) million gallon cross compound pumping engine.

(G) Furnishing and erecting upon their foundations two (2) 125 K. V. A. turbo-generators and condensers.

(H) Furnishing and erecting in the sub-stations five (5) centrifugal pumps and motors (vertical shaft type).

TRUE BLUE CLUB MEN WEAR APRONS

The West Avenue True Blue club, an organization of young men members of the West Avenue Methodist church, opened the 1912 season on Tuesday night by entertaining a large number of friends at a social given at the residence of Harry Bartz, 1312 Winnebago street. The club members donned kitchen aprons and served the lunch with dexterity and speed. By means of the social funds were raised with which the boys' club room in the West Avenue church will greatly benefit in new furniture and fixtures. Rev. C. R. Bearmore, superintendent of the boys' department of the Y. M. C. A., entertained the guests with a story telling speech. The club has sub-rented its rooms to other young men of the church as a means of increasing its revenues and providing a suitable club quarters for all. The club meets every two weeks in social sessions.

DECISION TO GIVE WILSON CALIFORNIA

LOS ANGELES, Nov. 22.—That Woodrow Wilson will surely get the California electoral vote as the result of the decision handed down by the appellate court here, was the opinion expressed today by democratic leaders.

The court ordered a recount of several precincts of the Los Angeles county vote. Two precincts in particular are referred to, one in Pasadena and one here. The Roosevelt votes in both these were virtually invalidated by the ruling. These two gave the colonel a plurality of about 200. Inasmuch as his total plurality in the state, including them, was only 40, the democrats are sure the decision means a Wilson plurality.

PAY INCOME TAX WITH OTHER LEVY

Tax Commission Describes Method of Meeting Payment of New Assessment

PAYABLE TO LOCAL TREASURER

If Personal and Income Taxes Are in Same District, Larger of Two Is to Be Paid

MADISON, Wis., Nov. 22.—(Special.)—The Wisconsin tax commission today announced the methods to be pursued in paying the new income tax, and the way to secure offset of income tax by personal property tax receipts. The instructions to taxpayers are as follows:

The income tax is payable to the town, city and village treasurers at the same time and place as the property tax.

When the income tax and the personal property tax are both assessed in the same district and the taxpayer is not assessed for income tax in any other district, the taxpayer will simply pay the larger tax and obtain two receipts, one for personal property and one for income tax.

If the taxpayer wishes to use a personal tax receipt issued in one district to offset income tax assessed in another district, the following procedure should be observed:

1. Secure a separate personal property tax receipt and have the treasurer endorse on it the amount used to offset income tax in that district.
2. Present or mail this personal tax receipt to the assessor of incomes of the county in which it was issued and apply for special offset receipts covering the balance of personal property tax.

3. This application should state the amount desired for offset in each other district in which the taxpayer has income tax to pay, giving the correct name of such district and the county in which situated.

4. Offset receipts for balance of personal property tax will be issued with coupons, which coupons will be accepted only for the amount entered upon them and in the district for which they are issued.

5. The taxpayer should pay his personal property taxes in time to secure special coupon receipts from the assessor of incomes and forward them to the local treasurer against whom they are issued. Penalties are imposed if the taxes are not paid on or before January 31, 1913.

6. Ordinary personal property tax receipts will not be received in offset in districts other than that in which issued.

7. The exact name is important. For instance, a firm cannot use its personal property tax receipt to offset the income tax of its members.

8. It is a common practice to write a personal property tax receipt at the bottom of the real estate receipt. Taxpayers should therefore request a separate personal tax receipt whenever they wish to use the latter to secure the special offset receipts mentioned above.

ELECTION CLERKS' CHECKS

Because of a special effort on the part of city officials, the election clerks' checks will be available three weeks earlier this year than they were the last time. The checks which are for \$5 each and 147 in number can be obtained at the city clerk's office tomorrow.

FAMILY WAR AGAIN OCCUPIES COURTS

Puent-Layman Feud of Fifteen Years' Duration Is Continued; Alley Causes Trouble

LAYMAN CHARGED WITH ASSAULT

Alleged to Have Struck the Boss Because He Hired Puent; Judge's Precautions Prove Useless

Despite all the precautions taken by the courts of La Crosse county to prevent the Puent-Layman feud from again breaking into court another phase of the family war, which has occupied the legal talent of La Crosse for the last fifteen years, again confronted Judge John Brindley this afternoon, when William Layman was arraigned in county court on a charge of assault.

According to the declarations of Anton Wedimann, the complaining witness, Layman, one of his employees, struck him over the head with a shovel because he added John Puent to his working crew.

The Puent-Layman feud originated fifteen years ago through a dispute over the right of way of an alley leading to the Layman home. The Puent residence is on the corner of Nineteenth and La Crosse streets and the Layman home is on Farwell street. The only inlet and outlet to the Layman home is an alley running parallel to the Puent residence.

The trouble began when William Layman in turning a corner in the alleyway while driving a team, struck a corner of the Puent barn, which, having poor supports, fell over on its side. Since then case after case has been brought before the courts, on more or less serious charges. Among the cases which have occupied the courts was one over the right of way of the alley, another caused by Mrs. Puent accidentally throwing a pan of dish water on Mrs. Layman as she was passing through the alley and numerous assault cases, all of which lacked corroborative evidence.

The testimony of the witnesses varied to such an extent that Judge E. C. Higbee at one time ordered the district attorney to investigate with a view of bringing charges of perjury against all concerned.

As a last resort the courts decided not to issue any warrants where the Puents or Laymans were accused except on the most serious charges.

According to the story told by Wedimann, he has several men employed doing trench work in the vicinity of the jail, among whom is William Layman. John Puent applied for a job recently and was hired. Wedimann asserts that Layman accosted him shortly afterwards and struck him with a shovel because he had hired Puent.

LOCAL ATHLETE IS GIVEN A POSITION IN THE LINE ON ALL-WESTERN ELEVEN

MADISON, Wis., Nov. 22.—Six Wisconsin football members have been chosen by Peterson, sporting writer for Collier's Weekly, to hold positions on the all-western team to be printed in the next issue.

Gillette will be given his regular position at quarterback, Tandberg and Van Riper at fullback and halfback respectively, and three men—Hoeffel, Keeler and Butler, are represented in the line.

Probably two and possibly three of these men will be in the line-up of the All-American team chosen by Peterson.

DEMOCRATS OPPOSE M'GOVERN COMBINE

Plan to Merge Against Progressive Republicans on Speakership Likely to Fail

M'GOVERN HAS TEN BACKERS

Merlin Hull Strongest Candidate for the Speakership Yet Announced

That the McGovern-La Follette fight has developed into an attempt on the part of McGovern to form a combination of bull moosers, stalwart republicans and democrats to take the speakership away from the progressive republicans in the next legislature, was the statement of a prominent democrat from the eastern part of the state who visited La Crosse on business today. This democrat, who is one of the most influential men in his party in this state and whose name is withheld for obvious reasons, declared that he had been approached by McGovern with the proposal of a moose-stalwart-democrat-etc-etc. combination on the speakership whereby a man of McGovern's own choosing could be elected to the discomfiture of the La Follette supporters. The McGovern proposal did not definitely outline the specific benefit which would accrue to the democratic organization out of such a combine but dwelt at some length on the benefits to Mr. McGovern thereby.

Plan Likely to Fail
According to the easterner he declined to enter the conspiracy and informed the would-be conspirator that he would throw his influence against any such combination. He declared that the democrats would be able to pick their own candidate for the speakership and proposed to do so, but if the McGovern following wished to support their man probably no objections would be made.

"All this talk of going outside of the organization to pick a speaker is pure rot," said Assemblyman E. J. Kneen of Bangor who was a La Crosse visitor yesterday, "and I for one am opposed to it and will oppose it."

According to the gossip in local democratic circles today, Mr. Kneen's view of the proposed alliance will be generally accepted by the democrats of the state. It is said, however, that some of the democrats in the next assembly who are not of the progressive faction will be in favor of anything to embarrass the progressive republicans. These, however, are so few in number that they would have very little influence in a party caucus.

According to a prominent republican McGovern will have about ten supporters in the assembly who will back him on any proposition but he will be able to accomplish very little with this number which is not even a balance of power. It is further assumed that the socialist assemblymen will align themselves with the progressive republicans as they have done in the past. With the assistance of the socialists the republicans will elect a speaker.

Hull Strong Candidate
Of the candidates already in the field for the speakership, Merlin Hull of Black River Falls is undoubtedly the strongest and will receive the united support of the progressive republicans unless something unforeseen turns up before the convening of the legislature. The others in the fields are, Ray J. Nye, Superior; T. J. Mahon, Eland; L. L. Johnson, Sturgeon Bay, and C. E. Estabrook, Milwaukee. It is probable that Mahon will be the McGovern candidate. Mr. Johnson has a large following among the La Follette men.

ROY WEIGEL DID NOT TAKE PURSE

And Won't Little Girl Who Found It Bring It Back to Clear His Record

"Will the little girl who found Mrs. Webber's purse please leave it with Judge John Brindley, county courthouse, and receive a reward therefore?"

Foregoing is the appeal of Mrs. J. A. Weigel, 508 Cass street, who wants the purse to complete evidence that her young son, Roy Weigel, is not guilty of robbing Mrs. John Webber, wife of the chief of police.

Last Sunday Chief Webber and family dined at The Home Restaurant. The Weigel family also dined there. After dinner Mrs. Webber missed her purse, and that evening Roy Weigel was taken to the police station on suspicion. No warrant had been issued, and finding no evidence upon him Joseph McGrath, who made the arrest, released him for the night upon the boy's promise to return the next day. The Weigel boy told his mother the officer told him at first that he would be released when he admitted stealing the purse, but not before. Roy denied stoutly that he had taken the purse.

But other circumstances were working out the vindication of the boy whose troubles are the penalty for former boyish indiscretions which he has been not only trying to live down, but paying for financially with his wages. Twice on Monday a little girl entered the Hell Shoe store and asked to see Mrs. Webber. Who Mrs. Webber was she didn't know. She finally explained that she had found a purse containing a bill against Mrs. Webber from the Hell store, and received by Mr. Hell. The purse also contained fifty cents, and the child wanted to return the purse and money. It was Mrs. Webber's purse intact. Mr. Hell was not in, but a clerk directed the little girl to the police station. However, the child did not go there, and her identity is not known.

Roy Weigel has been ushering at The Majestic, and upon hearing of the boy's arrest the management discharged him. He was taken back, however, as soon as it was learned that he had been falsely accused and that Judge John Brindley was deeply interested in his reformation. So now all that remains to complete the happiness of Mrs. Weigel is to find the little girl with the lost purse. Will not she please bring it to Judge Brindley?

PRISONER ESCAPES FROM CITY HALL

Janitor Goes After Meat and Leaves Prisoner Sweeping; Walks Out the Door

Lost—One prisoner. Finder please return to central police station. No, this isn't the want ad column, but the above is a bona-fide "want" nevertheless.

If J. J. Brown, janitor of the city hall and incidentally keeper of the city bastille, were to be asked for his greatest wish it is safe to say it would prove to be the recovery of the self-same prisoner, and the person who succeeds in finding the lost treasure is sure to receive the lifelong gratitude of Brown.

Carl Bach, who proves to be the lost article, has been utilized as keeper of the city broom during the last week and under the watchful eye of the janitor has proven himself eligible as a house maid of the first rank.

This morning, as usual, Brown escorted his trusty broom wielder through the corridors of the city hall and into the council chamber to prepare for the meeting of the city dads tonight. Scarcely had the daily housecleaning started when Brown remembered that he owed a visit to the butcher and without waiting to return Bach to his cell, started for the meat market.

A half hour later Brown returned to resume his sweeping and discovered that his assistant had been "lost, strayed or stolen away" during his absence. A moment later Brown reported the matter to the police authorities, but receiving no consolation from that quarter turned away dejectedly, half-heartedly declaring that he didn't care—he had to have meat.

Carl Bach was given a fifteen-day sentence twelve days ago on a charge of drunkenness. Chief John Webber today declared that he is of the opinion that Bach is wanted elsewhere or he would not have attempted to escape. Thus far the efforts of the police to locate the missing prisoner have brought no results.

ST. VITUS' DANCE

The Cure of This Case Is of Vital Interest to the Parents of Every Nervous Child.

Mr. James F. Thompson, a well-known printer, of No. 301 West Iowa street, Memphis, Tenn., has recently told of a cure in his family that will interest every nervous sufferer. Parents of pale, weak, nervous school children will be especially interested. Mr. Thompson said:

"I have a son, Ray, who at the age of five years was scared by some boys. In about two weeks' time he broke down and gave away completely. He had to go to bed and the doctors said that he had St. Vitus' dance. During the entire night and for many nights he would be awake and cry. He could not sleep at all, but would roll and toss all night long. His arms and head jerked and he could not feed himself. He got so nervous that he became so nervous that he could not even speak. He had particularly bad spells, which came on about every three months. He was confined to bed for two months when he was first taken sick.

"I had a nerve specialist and two of the best physicians in Memphis with him during the first year of the disease. They couldn't do anything for him and didn't help him a bit. Finally the last physician said that he would have to cut out his nerves. I then bought a box of Dr. Williams' Pink Pills. They helped him right away and, although he had been sick for a year and a half, he began to get on his feet and gain strength. I gave him the pills until he was entirely recovered his health. He has never had an attack of St. Vitus' dance since. He is attending school and is in perfect health."

St. Vitus' dance, nervous debility or neurasthenia, neuralgia, sciatica, nervous headaches and nervous dyspepsia are due to tired, weak, exhausted nerves. The correct treatment in each case is to build up and purify the blood, which alone can give the nerves nourishment. Unless you build up the blood, it is useless to try to reach the nerves with medicine or nourishment. Dr. Williams' Pink Pills for Pale People contain the very elements which make the blood to nourish the nerves until they become strong.

Write today for the free booklet, "Diseases of the Nervous System."

Dr. Williams' Pink Pills are sold by all druggists, or will be sent, postpaid, on receipt of price, 50c. per box; six boxes for \$2.50, by the Dr. Williams Medicine Company, Schenectady, N. Y.

QUICKLY CURES THE WORST BACKACHE

New Remedy Makes Kidney Trouble, Bladder Disorders, and Rheumatic Pains Disappear, as if by Magic

It is no longer necessary for any one to suffer with backaching, kidney trouble, have disagreeable bladder and urinary disorders to contend with, or be tortured with rheumatism, stiff joints, and its heart-breaking pains, for the new discovery, Crozone, quickly and surely cures all such troubles.

Crozone is the most wonderful remedy yet devised for ridding the system of uric acid and driving out all the poisonous impurities which cause such troubles. It is entirely different from all other remedies. It is not like anything else ever used for the purpose. It acts on the principle of removing the cause. Pills, tablets, and other remedies at the best, merely stimulate the kidneys, giving temporary relief. Crozone cleans out the poisons.

It soaks right in through the walls, membranes and linings, like water in a sponge, neutralizes, dissolves, and makes the kidneys sift out and filter away, all the uric acid and poisons from the blood, and leaves the kidney and urinary organs clean, strong, healthy, and well.

It matters not how long you have suffered, how old you are, or what you have used, the very principle of Crozone is such, that it is practically impossible to take it into the human system without results. There is nothing else on earth like it. It starts to work the minute you take it and relieves you the first time you use it.

If you suffer with pains in your back, and sides, or have any signs of kidney, bladder troubles, or rheumatism, such as puffy swellings under the eyes or in the feet and ankles, if you are nervous, tired, and run down, or bothered with urinary disorders, Crozone will quickly relieve you of your misery. You can secure an original package of Crozone at trifling cost from any first class druggist. All druggists are authorized to personally return the purchase price if it fails in a single case.

CROP TOO BIG TO BE MOVED THIS YEAR

Will Take Roads Two Seasons to Transport the Farm Wealth of 1912

BUSINESS IS ON THE JUMP

Influence of Farmers' Prosperity Is Being Felt in All Lines

CHICAGO, Nov. 22.—Crop figures in Chicago have eclipsed politics or foreign wars as a business factor, the change of administration or the reflex of the European disquiet concerning the Bulgarian war being overwhelmed in importance by the new farm wealth so great it will take the railroads two years to move it. The statisticians have not begun to get their final totals for the money value of the corn, wheat and oats, the cotton, flax and fruit that has been thrown into Uncle Sam's hopper. Some defeated factions started to gloom a bit when the election returns were in but now they wish they hadn't. Business is again tugging at the harness like a fire horse with the gong going. Orders are pouring in from all directions where cautious buying has "cleaned up" the merchants' stock to the great satisfaction of conservative bankers. Grain houses and bankers are feeling the "speeding up" of crop money and the tonnage figures of the railroads assure them of earnings far into the future that will require big payrolls and expenditures and make the butcher and baker and automobile maker smile whatever his politics. "On the jump" is the status of business say the heads of many big lines. Complaint from the packers is because cattle are so high and scarce. Buyers have been sent by all the big houses down into Mexico for even with freight and duty added the cattle are far cheaper than those from American farms and ranches.

Joker in Ordinance

The neat joker in Chicago's profit sharing traction ordinance by which the traction companies' accountant checks up for the city large sums which are due the public for the use of the streets was one of the by-products of the wage controversy with the car men. In the examination of the city treasurer's men the disclosure incidentally was made that when checks came over from the traction companies' offices no one in particular knew whether the sum was within gunshot of the correct amount and no one made it his business to find out because the accounts are audited by an accountant—who is paid by the traction companies. A hurried examination of the ordinance disclosed the provision concerning audit was being complied with according to its letter. Having bought the city's property the traction company supplied the figures on which payment is made and has them severely scrutinized—by a man in its control. This was part of the bargain made when one of President Taft's cabinet officers was traction counsel testing the links in the chain. The publication of one embarrassing fact made President Busby very angry but the disturbance soon was lulled to silence and the auditing will continue for a while at least to be done to the liking of the traction company.

War on Land Fakes

War on fake land deals was declared by the National Immigration congress as result of conditions which it declared during the second annual session in Chicago had seriously checked the settlement of available land in the United States. State legislatures are to be asked to curb the blue sky variety of land deals. The plan to propose to the legislatures is that a law be passed requiring the owner who has land for sale to register a description of it with proper authorities in the state. The description must include the location of the land, what it will produce, and the quality of the soil. If the owner registers his land falsely he will be subject to prosecution and also he must make redress to the purchaser. This plan was decided upon after investigation of methods which safeguard land purchasers in Canada. J. Bruce Walker, immigration commissioner for western Canada had been asked to detail the methods of immigration adhered to by the Dominion, where the second transcontinental railway, the Canadian Northern, has been built as result of great influx of settlers. One advantage which Canada has over the United States, Mr. Walker believes, is that the federal government instead of the states has charge of promoting immigration. "To illustrate how the federal government helps," Mr. Walker said, "when a farmer who has taken a homestead in Canada gets short of money and needs provisions for his family the government supplies him and takes a lien on the land.

"If that lien is likely to keep him from getting the patent to his land, the government generally releases the man from payment. If a homesteader's wife becomes ill and her husband has not the funds to send her to the hospital the government does that. It sends the doctor to the home and nurses for the children if the farmer cannot afford it."

The less some people know about a matter the surer they are that they know all there is to know about it. Before marriage a girl wants her fiancé to write her love letters, but after facing the parson with him she is satisfied with checks.

W. B. U. PLAYS THE INDIANS TOMORROW

The W. B. U. team plays a return game with the Tomah Indians tomorrow, the Indians coming here to meet the locals at League Park in what gives every indication of being a hard fought game.

In the last game between these two teams the Indians were the victors by two touchdowns which were not made until the last few minutes of play. These touchdowns were made by trick plays and as the W. B. U. defense has been carefully coached to break up these plays a great battle should ensue tomorrow and the locals undoubtedly stand an excellent chance of winning. This is the first time that the W. B. U. has been able to secure League Park for a game and the Tomah Indians will be a good drawing card for they always put up a good battle.

U. S. EMBASSY HOSPITAL

NEW YORK, Nov. 22.—Myron T. Herrick of Cleveland, O., American ambassador to France, who said he was on his way to Washington on official business, was a passenger on the Mauretania today. Herrick said that before he left Europe he learned that Mrs. W. W. Rockhill, wife of the ambassador at Constantinople, had turned the embassy into an impromptu hospital, caring for the wounded and sick soldiers at the rate of 100 a day.

DESERVES PLACE ON ALL-WESTERN TEAM

E. Q. Oliphant.
E. Q. Oliphant, Purdue halfback, has proven one of the sensational players of the country the present season, and seems assured of a place on the All-American eleven. All the football authorities agree that he has no superiors and few equals in the position he plays. He is what football experts term a player of instinct, seeming to grasp every play that comes his way with a natural intuition that gets results. His wonderful speed, open field work, dodging and kicking qualities have gained for him this year a national reputation.

CHILD OF FORMER GOVERNOR SUICIDE

Miss Norma Garvin, Daughter of One Time Executive of Rhode Island, Drowns

DESPONDENT FOR SEVERAL DAYS

Note Found in Dead Girl's Effects Says Water Is Constantly on Her Mind

LONSDALE, R. I., Nov. 22.—The body of Norma Garvin, daughter of ex-Governor Garvin of Rhode Island, was taken from the Blackstone river today by operatives from the Ann and Hope Mills, who were working with grappling irons. The body was found not far from the mill, in about nine feet of water. An autopsy will be held.

After a cursory inspection by the state officials, it was announced that there were no marks of violence and that death was due to drowning. The girl had been dead about twenty-four hours.

A note found among the girl's effects read:

"I cannot get the water off my mind."
Miss Garvin had been despondent for several days, according to her stepmother. She left Thursday evening for a suffragette meeting at the Brown university but she never reached the railroad station, which is only a five minute walk from her home.

HOLDUPS ROB SALOON

GLENCOE, Minn., Nov. 22.—Three masked holdup men last night held up a local saloon, robbed all the customers, held them at bay for an hour and robbed everyone who entered. They obtained \$500, hid it and then attempted to repeat the feat at another saloon. They were surprised and overpowered without a fight by the sheriff as they were entering the second saloon. Only \$50 of the money has been found.

SENATOR CULLOM 83

WASHINGTON, Nov. 22.—Senator Shelby M. Cullom of Illinois, nestor of the senate, celebrated his 83rd birthday anniversary by attending the wedding of his niece, Miss Eleanor Cullom Ridgely, daughter of the former comptroller of the treasury. Senator Cullom was elected to the house in 1864 and on March 4 will have completed 30 years of continuous service in the senate.

A Dramatic Death.
A sergeant major of an infantry regiment stationed in Bremen was sentenced to a slight disciplinary punishment for having mortally wounded a man with a revolver in the course of a fight. He appealed against this, but was informed that his appeal had been rejected. He then ordered his men to load their rifles with blank cartridges, but during their absence reloaded them with ball cartridges. He then drew up his men in firing line and carefully showed them how to aim their rifles straight at his heart. With the utmost calm he then ordered, "Fire!" and fell with four bullets through his heart.—Exchange.

Not Needed.
While a traveling man was waiting for an opportunity to show his samples to a merchant in a little backwoods town a customer came in and bought a couple of nightshirts. Afterward a long, lank lumberman, with his trousers stuffed in his boots, said to the merchant:

"What was them 'ere that feller bot?"
"Nightshirts. Can I sell you one or two?"

"Naup, I reckon not," said the lumberman. "I don't set around much o' nights."—Lippincott's.

To Bleach Handkerchiefs.
A good way to bleach handkerchiefs when it is not convenient to hang them out of doors is to wash them and then let them soak overnight in water in which a little cream of tartar has been dissolved.

Bulgarians.
Only extreme poverty will drive the Bulgarian into domestic service. As a rule, widows are the only servants to be got, and they will only become cooks or housemaids if they may bring all their family with them.

Radical Remedy.

AUTOS NEEDED FOR CHARITY WORKERS

The Thanksgiving fund which is being raised in the schools of the city for the purpose of aiding poor school children and helping to keep them in school will be an unqualified success according to a statement of Miss Winnifred Salisbury, general secretary of the Associated Charities and Humane society, who originated the plan. The children are responding to the appeal for help very generously and are raising the fund entirely out of their own savings and earnings. The names of the schools contributing to the fund, which will be collected Thanksgiving, will be published together with the amounts raised by each. It is hoped to stimulate friendly rivalry by this method.

The generous loan of automobiles by persons interested in the work of the Associated Charities has increased the efficiency of that organization at least 100 per cent, said Miss Salisbury today.

"We are able to make at least twice as many calls on needy families when we have the use of automobiles," she averred, "and the people of La Crosse have been very generous with their cars so far. Nevertheless we can use cars every day and if anyone wishes to contribute the use of their machine to charity work we will be very thankful. We can use an automobile every morning and afternoon, during the rush season which has begun."

DEFENSE CALLS EXPERT

GOSHEN, N. Y., Nov. 22.—The defense in the trial of Burton W. Gibson, lawyer accused of the murder of Mrs. Rosa Szabo today placed their medical experts on the stand to testify that the condition of the woman's body did not of necessity indicate the death by choking. It was believed the defense would rest this afternoon. Court then would adjourn over to Monday, when the summing up would take place.

URGES NEW LAND POLICY

MINNEAPOLIS, Minn., Nov. 22.—In an address before the conservation congress Gov. Norris of Montana urged a new land policy by the federal government in its dealings with the northwest.

If the United States would keep desirable citizens within its borders, the department of the interior must release all federal lands in the northwest, that immigrants from other states may settle in this section, declared the Montana governor.

Half a dozen other members of the conservative wing of the republican party who represent Illinois went down to defeat with their leader. George W. Foss, who represented an Illinois district for twenty years, will be missed. So also will Representative Prince, once chairman of the committee on military affairs, who has served for eighteen years. William B. McKinley, who managed President Taft's pre-convention campaign, is

also on the list of those who must soon retire.

Representative Samuel McCall of Massachusetts, by general consent the most scholarly member, retires after twenty years' service. He is making a fight for the senate.

Representative Dalzell, called the "high priest of protection for home industries," was defeated in the Pennsylvania primaries. He is serving his thirteenth term. "Cy" Sulloway, the New Hampshire "giant," is another who will be missed. For eighteen years he has championed the cause of pensioners. He is the largest man in the house, physically.

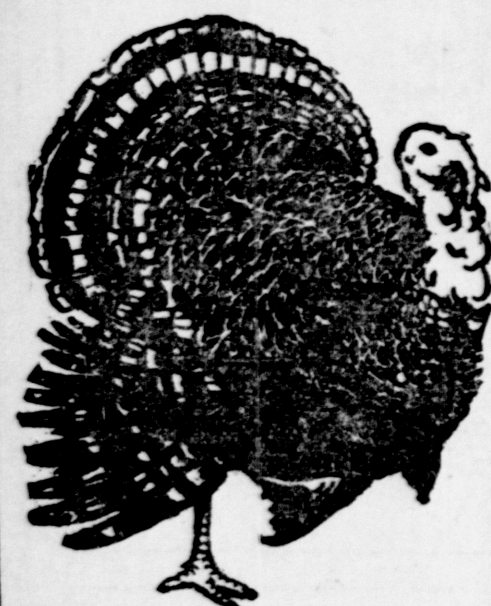

These are but a few of the old republican standbys who must soon retire. After March 4 but a mere remnant of that once powerful organization known as "the old guard" will be left.

UPSET STOMACH AND INDIGESTION

"Pape's Diapepsin" cures sour, gassy stomachs in five minutes

Time! In five minutes all stomach distress will go. No indigestion, heartburn, sourness or belching of acid or eructations of undigested food, no dizziness, bloating, foul breath or headache.

Pape's Diapepsin is noted for its speed in regulating upset stomachs. It is the surest, quickest and most certain remedy in the whole world and besides it is harmless.

Millions of men and women now eat their favorite foods without fear—they know now it is needless to have a bad stomach.

Please, for your sake, get a large fifty cent case of Pape's Diapepsin from any drug store and put your stomach right. Don't keep on being miserable—life is too short—you are not here long, so make your stay agreeable. Eat what you like and digest it; enjoy it, without dread of rebellion in the stomach.

Diapepsin belongs in your home anyway. It should be kept handy, should one of the family eat something which doesn't agree with them or in case of an attack of indigestion, dyspepsia, gastritis or stomach derangement at day time or during the night it is there to give the quickest, surest relief known.—Advertisement.

Safest Way to Kill a Flea.

To kill a flea, says the Scientific American, the surest way would be to place him on one of those impenetrable plates used in naval warfare and confine him thereon by means of cables fastened securely to each of his several legs, then to train upon him from as near a distance as would be feasible an irresistible projectile from one of those twelve inch guns.

FATHER FINDS ONLY GRAVE OF HIS SON

Aged Man Who Comes from Austria to Find His Son Comes Upon His Funeral

JANESVILLE, Wis., Nov. 22.—Six years ago John Sperahik left his home in the province of Utiier, Austria, to escape prosecution for an imaginary crime. He told his aged father, his wife and three small children he would send for them as soon as he could.

Sailing for America, he joined a gang of Slav workmen and was sent to the southwest. Whether his letters were never written or miscarried is not known but during those six years nothing was heard of him. A year ago a cousin came to this country to search for the missing man. He traced him to Milwaukee, Chicago, St. Louis and Kenosha. Then the father, Johann, crossed the sea to find his beloved son and the two men, the father, 70 years old, continued their effort of tracing Sperahik.

They learned he had come to Janesville and hastened here. It was learned then he had met with an accident and was at the hospital, but at this place they were told he was at the county farm and they walked the four miles there, losing their way several times on the trip unable to ask directions in English.

Upon reaching the farm they passed a funeral and made inquiries. One look at the face of the dead showed it was the long sought son and the search of six years ended beside the coffin of the Austrian exile. The father stood beside the open grave as the corpse was lowered and sobbed out a prayer in Austrian, then turned and walked back the four miles to the city.

Austrian workmen at the sugar factory, cared for him and he will be sent back to his home with the few dollars that Sperahik had not drawn from his pay. The son slipped on a sidewalk and fell and fractured his skull ten days ago, dying without regaining consciousness.

Land of Lorna Doone.

There are many who deny that there is any historical basis for the story of the Doones of Badgeworthy and that there was ever a giant John Ridd of Oare. But so powerful is the romantic influence of Blackmore's Exmoor story that thousands of tourists go every year to see the little church at Oare and to walk or ride on Exmoor ponies along the valley to the water slide, and no matter if the slide be disappointingly small and there be doubts about the Doones, the fascination of the romance will, it is safe to say, prevail for many generations. Ridd or Red has been a local name in the district for a long time.—Westminster Gazette.

CHRISTIAN SCIENCE PRIVATE BUSINESS?

George W. Glover.

That Christian Science is not a religion but a private owned business, is the contention of George W. Glover, of Lead, S. Dakota, only child of Mrs. Mary Baker Glover Eddy, founder of the denomination. If he can make a New Hampshire court accept his contention as correct, Mrs. Eddy's gift of the bulk of her fortune to the First Church of Christ, Scientist, of Boston, will be declared "null and void" and her wealth will descend to her son.

Emerson and the Church.

During the short period of Emerson's pastorate he was obliged to call on an old man who was dying. The young minister murmured apologetically a number of confused and clumsy commonplace, and finally his aged client cried sharply, "Young man, if you don't know your business you had better go home." Emerson, who came to give advice, took it like the honest and sincere man he was, and he had no peace until he left the church for good and all. He was totally unfitted to be a minister because he had no Christian faith, and as soon as he realized his unfitness he sought another occupation and became enormously useful to humanity in other ways.—Century.

A Dog and a Bull.

A certain Irish officer responsible for dog licenses had a system of discovering his victims. He knocked at the side door of every house, and if a dog barked he immediately demanded that the owner show his license. Every dog must have his day, however, and one day this collector reached the street with his lower garments nearly intact. "Bedad," he said, eying the victorious terrier through the railings, "that's the sort of a dog I like to see out o' me sight!"

THE RIGHT WORD IN ITS PLACE

You Can Acquire Knack of Using Language by Taking Advantage of This Offer

Have you the magic of the necessary word?

If not, why not?

The Tribune is at present offering to you the opportunity of obtaining to what degree you will the faculty of free expression of thought through the use of an extensive vocabulary, which has brought fame and fortune to many noted men.

Many fortunes have been made and may be made from words. The Tribune in offering to you the New Modern English Illustrated Dictionary, supplies you with the mine which, when operated by you, will certainly better your fortune through increasing your ability of expression, add much to your enjoyment of life, and perhaps bring you the success which you covet.

Rudyard Kipling has acquired a fund of words that gives him invariably the right word in the right place; Conan Doyle's powerful descriptive style is merely a structure of words rightly understood and rightly applied, and each of these Englishmen receive from 50 cents to \$1 a word every time he sells an article.

Rufus Choate, the most successful jury advocate of his time, refused to enter the court room until he had found a new word for use in that day's speech. Senator Ingalls, the most powerful orator of the Fifth Congress, when asked how he acquired his wonderful command of language replied:

"For years I have made a practice of searching the dictionary for words that are new to me, and then using them in conversation and public speaking."

The opportunity of which these men have taken advantage is open to

One of the season's fair debutantes at the national capital is Miss Marie Peary, daughter of Admiral Robert E. Peary, the discoverer of the north pole. She will be remembered by a great many people as the "snow baby," which name was given her because of her birth inside the Arctic circle.

you. Compare your limited success with your limited vocabulary and you may see your limited failures in a new light, and realize why you do not have the same chance as the man with the more fluent speech and apt way of expressing his thoughts.

If you are hampered by a limited library, get busy and clip coupons for the New Modern English Illustrated Dictionary. Keep it at your elbow in your office or in your home and use it constantly. Do not pass a word you do not understand when you are reading or listening to a sermon or lecture—look it up in the dictionary and you will find that your fund of general information and your vocabulary will grow apace and you will be worth more to yourself, to your employer and to your friends.

The distribution of dictionaries has proved such a popular idea that the dictionary department is busy all day long showing the books to those who are anxious to see what they are anxious to see what they have collected six consecutive coupons. Not one book will be given out until the six days expire. It is expected that sets of coupons will begin to arrive with a rush then.

Heat From Cold Water.

Heat from cold water seems fabulous, but it is an established fact. The water is decomposed by electricity into its constituent gases, hydrogen and oxygen. When these gases are reunited the act of combination causes the evolution of intense heat. The well known limelight is an example of this.

NORMAL CHOOSES DEBATING TEAMS

Will Argue with Forensic Students of Platteville and Milwaukee Schools

At the tryout debates which were held recently at the normal school two teams were chosen which will be sent against the debaters of Platteville and Milwaukee. The Eclectic society of the normal, represented by Barrett, Euler and Rudy, will debate against Milwaukee and the Websterian club will send McDonald, Hitt and Roberts against Platteville. Last year two notable victories were earned against the other two schools in this district and with the material which is on hand this year prospects are bright for a duplication of the feat. McDonald and Hitt were on last year's victorious team from the Websterian society while Barrett was district champion high school orator in his high school days. Euler has had much high school experience in debating.

The addition of a department of public speaking to the curriculum of the normal has done much for forensics in the institution. Under Professor J. R. Moore classes are held three times a week and interclass contests and intersociety contests will be staged during the winter. Professor A. H. Sanford under whose direction last year's debaters won their victories will coach the teams this year.

The junior class entertained the faculty and students at a "social hour" yesterday afternoon. A pleasing program was rendered in the auditorium after which the assembly adjourned to the gymnasium where dancing was indulged in.

President Cotton has left for an absence of about ten days during which he will attend several conferences and visit his old home in Indiana. Vice President Engleman is discharging orders in his stead.

HOUSTON, MINN.

An auto party consisting of E. O. Abrahamson, Martin Sennes, A. Neom and Wallace McMillan, went to Winona Wednesday on business and pleasure.

Game trapping and coon hunting are on in earnest among local sportsmen and good returns have resulted so far.

The demand for tickets for the opening of the new opera house Friday has exceeded all expectations and prospects are now that extra seats have to be secured.

Dan McCormick and Mack Webster autoed down from Rushford Tuesday trying to boost their Hupmobile sales for 1913.

Fred Cottrell is visiting home folks, having returned recently from his claim in eastern Montana.

Corn shredding is in progress among the farmers and the beautiful fall weather is a big boost towards getting all farm work done.

Superintendent Atkins of La Crosse passed through Tuesday and interviewed several of the local citizens relative to future improvements to be made in the railroad yards here.

Houston's new high school orchestra is scheduled to furnish music for the opera house opening Friday night.

Considerable wheat and barley is being marketed here these days and the prices paid here are worthy of comparison with any market in these parts.

CONFESSES CRIME

WARSAW, N. Y., Nov. 22. — Alphonso Prince today confessed to the murder of Frank Bentley, for which crime he was arrested yesterday shortly after Bentley's body was discovered burned on a farm.

Bentley, who was foreman of a cheese factory, was killed Saturday and Prince was suspected because he was the last person seen with the murdered man.

CREATES MILITARY HONOR

BELGRADE, Nov. 22.—King Peter has created the Order of Dushan the Mighty for soldiers who distinguish themselves against the Turks. Dushan was a Serbian soldier who once subjugated the Balkan peninsula.

Mountain Stops Wireless Message.

It has been observed repeatedly on board vessels stationed west of Cape Otago (at the southern tip of Australia) that it was impossible to communicate with vessels situated in the port of Melbourne. This has been attributed to the fact that the mountain which forms the cape contains large quantities of metallic minerals which absorb electric waves.

Cynic Well Answered.

A cynic once observed: "It does not matter whom you take as a bride, because you always find out next day that you have married some one else." To which every happy husband will confidently reply: "It is better to love the real woman you have married than to marry the ideal girl you have loved."

Live Telegraph Poles.

In Nevada the telegraph poles in damp, low-lying situations have taken root and flourished. They are of cottonwood, and planted with the bark upon them. In some parts of Java, and this also takes root, thereby resisting the attacks of the white ants or the inroads of natural decay.

TRICKED INTO WEDDING

WOMAN DECLARES SHE MARRIED CHAUFFEUR BELIEVING HE WAS RICH MAN'S HEIR

CHICAGO, Nov. 22.—Charging that she was tricked into marrying a man whom she believed to be Edward B. Kirkman, a son of wealthy Marshall M. Kirkman, formerly vice president of the Chicago & North-western railroad, Mrs. Aimee W. Givins-Boehm, today sought to bring about the arrest of Edward Boehm, a chauffeur. The woman said that she eloped and married the man she thought was Kirkman, and later found there was no such person and is now without her husband and \$300 which she says he took away with him.

According to the woman, she met the man whom she married at 2 a. m. When her husband disappeared the day after the wedding, she called up the home of the wealthy Kirkmans and learned that there was no such person as Edward B. Kirkman. One of the family identified a photograph of the bridegroom as Edward Boehm, formerly employed as a chauffeur by the Kirkman family.

ST. PAUL WOMEN TO HAVE CLUB

ST. PAUL, Minn., Nov. 22.—St. Paul will have a woman's commercial club in the near future if the movement inaugurated last night at the meeting of the Political Equality club is successful. The meeting was addressed by Mrs. James L. Shute, a member of the Woman's Commercial club of Seattle. Dr. Auten Pine in introducing her, announced that St. Paul was soon to have a similar club.

Live Australian Freaks.

A calf, somewhat of a freak of nature, was born on T. G. Ware's farm at Little Akroa, Australia, recently. It has five legs, the extra one working in a socket in the breastbone. The calf is thriving, and is strong and healthy. Another freak, a lamb, is reported to have been born at Plat Point Station. It has three ears and eight legs. It did not live.

RISKS HIS LIFE TO SAVE DOG

JUD, N. D., Nov. 22.—Because he tried to save the life of a dog that ran in front of his automobile, Dr. J. C. Maercklein of this city was nearly killed, being pinned under his car when the machine turned completely over after striking a boulder on a sharp hill near here. His automobile was almost completely wrecked, and the dog that caused the accident was killed.

Apis.

It is difficult to believe what early writers tell us of the divine honors lavished upon Apis, the sacred bull of Memphis, and upon Minevis, the sacred ox of Heliopolis. Yet perhaps some of our customs of deeds of today, as handed down by the uninitiated, may seem just as incongruously absurd when heard and understood from an equally proportionate future time.

A girl despises flattery—until some one begins to flatter her.

AUTO SOMERSAULTS AND SPILLS TWO

BROOKINGS, S. D., Nov. 22.—One young man is dead, three others are badly bruised, and their automobile is partly wrecked as the result of one of the worst auto accidents that has ever happened in Brookings county.

Tony Johnson, son of John W. Johnson of Volga; John Bertness, Emil Steen and Vern Goodroad, were returning to Volga from a turkey raffle at Bruce. In making a turn in the road the machine, which was being driven by Johnson at about forty-five miles an hour turned a complete somersault, spilling out Goodroad and Steen, who were riding in the back seat. By some freak it landed on its wheels and continued its journey with Johnson and Bertness. As soon as the car could be stopped, Goodroad and Steen were picked up, and the former, who was the most seriously hurt, was rushed to the Volga hospital, where he died Tuesday evening.

Switzerland.

If flowers and sunshine were enough to satisfy all humanity, doubtless there would not be ice and cold. There are those who find in the snow-capped peaks of the Alps a charm which is never unfolded to them in the tropics, and even in winter there are those who dream of mountain climbing and those who even cross the ocean to enjoy the sport with its splendid exercise and its inspiration in the grandeur ever being unfolded before them.

Pioneer Tobacco Growers.

The original planters of fine tobacco in Honduras were Cubans, who brought their seed and methods of curing, and with favorable soil, climate, and labor conditions were successful, their tobacco taking first prize in several international exhibitions; quantities were exported to Cuba and sold as Habana tobacco. These planters became well to do and retired.

Stained Boards.

Boards that are stained are apt to become lighter after a little wear; but if rubbed with paraffin oil they will again become darker. They may then be rubbed with beeswax and turpentine, when they will look as well as ever.

HELD FOR KILLING HUNTER FOR DEER

SKOWHEGAN, Me., Nov. 22.—On a charge of "shooting a human being for a deer," William Wilding, an Indianapolis railroad conductor, who was arrested after Warren Holden had been killed while hunting in the woods near the Canadian line, was held on Wednesday for the December term of the Supreme court. Mr. Wilding furnished bail.

Musterole—Quick Relief No Blister

MUSTEROLE is a clean, white ointment, made with the oil of mustard. It does all the work of the old-fashioned mustard plaster—does it better and does not blister. You do not have to bother with a cloth. You simply rub it on—and the pain is gone.

Millions of people have adopted MUSTEROLE in place of the mustard plaster.

You will find it in large hospitals. Doctors and nurses use MUSTEROLE and recommend it to their patients.

They will gladly tell you what relief it gives from Sore Throat, Bronchitis, Croup, Stiff Neck, Asthma, Neuralgia, Congestion, Pleurisy, Rheumatism, Lumbago, Pains and Aches of the Back or Joints, Sprains, Sore Muscles, Bruises, Chills, Frosted Feet, Colds of the Chest, (it prevents pneumonia).

At your druggist's in 25c and 50c jars, and a special large hospital size for \$2.50.

Accept no substitute. If your druggist cannot supply you, send 25c or 50c to the Musterole Company, Cleveland, Ohio, and we will mail you a jar, postage prepaid.

OVER 1,000 DIE IN MEXICO QUAKE

New Earthshock Center Near Mexico City Becomes Active with Volcano

MEXICO CITY, Nov. 22.—Late reports from the state of Mexico today place the number of dead as a result of Tuesday's earthquake at more than 1,000. Every building in the city of Acamby was demolished. More than 100 persons were worshipping in a church when the structure crashed down on the congregation and all were buried in the wreckage. Half of the bodies have not yet been recovered. Other towns in the northern part of the state are reported to have been destroyed and hundreds killed or injured.

A great hill in the center of the stricken district has turned into a volcano and today was smoking and throwing up great masses of rocks, which are crashing into the village at the foot of the hill.

Scientists here today declared that the district is a new earthquake center which will constantly menace Mexico City, as it is less than fifty miles away. Slight shocks have been felt at intervals since the big quake Tuesday and the district is being rapidly depopulated.

SOCIETY TRAMPS HURT BY BULL

ST. CLOUD, Minn., Nov. 22.—After riding for nearly two weeks on the rods of freight and passenger trains and escaping from conflicts with railroad brakemen of five divisions without a scratch, Carl Hendricks and Harold Mason, two Milwaukee society men, who have been attempting a trip from Seattle to their home without paying a cent, were chased across a ten-acre field and injured by an angry bull.

JEWELER SCORES POLICE

CHICAGO, Nov. 22.—"Chicago has the most stupid police of any city in the world. They seldom 'detect' anything and they never inconvenience themselves in guarding anything."

PLAN NEW LEAGUES

OMAHA, Neb., Nov. 22.—A new major league, comprising Indianapolis, Louisville, Columbus and Toledo American Association clubs, and similar clubs at Cincinnati, Cleveland, Pittsburgh and Detroit; and a new Western League, composed of Kansas City, St. Paul, Minneapolis, Milwaukee, a north side Chicago team, Omaha, St. Joseph and possibly Des Moines—this is the "outlaw" plan for reorganizing the baseball lineup. W. A. Rourke, owner of the Omaha club, who has been approached by the "outlaw" promoters, gave out this information today.

TO OPEN GOLD COUNTRY

PANAMA, Nov. 22.—The bill providing for an efficient policing of the Cas San Blas country is sure to pass the assembly, and be signed by President Porras, it was said on good authority here today. The section has never been thoroughly explored by white men on account of the ferocity of the San Blas Indians, but it is known to be rich in gold. The new government decided to open it.

Rapid Journey for That Age.

Cardinal Wolsey did not live in an age of rapid transit, but he created it for himself. His capacity for rapid travel was a valuable aid in carving out a career. Wolsey is said to have first won royal favor in this way. He was charged with a message from Henry VII. to the Emperor Maximilian in the low countries and left London in the afternoon. He went by boat to Gravesend, by horse to Dover, then by boat again to Calais, and he was with the emperor the following evening and back to the king in just over two days from the time of starting.

BRITT PICKS WOLGAST

MILWAUKEE, Wis., Nov. 22.—Jimmy Britt, former lightweight champion, believes Ad Wolgast will win over Willie Ritchie. Britt closed a theatrical engagement here today and left for the coast to see the fight.

"Ritchie cannot stand up under Wolgast's blows for twenty rounds," he declared.

As to the "Dogdays."

The "dogdays" are so called because the Greeks on first beholding the star Sirius with the naked eye were wont to sacrifice a brown dog to appease his wrath, the general belief being that Sirius was the cause of the hot, sultry weather usually attendant upon its appearance, and that on the first morning of its rising the sea boiled, wine turned sour, dogs grew mad and man became afflicted with all manner of burning fevers, hysterics and frenzies. At Argos a festival was held during the dogdays known as "Cynophantes," which means that dogs were killed on sight.

Overcoats! Overcoats! The Continental is the place to buy that overcoat.

The Gold Dust Twins' Philosophy

NOW you have often said:—"Oh dear, I dread when eating time comes near. It's not so much the cooking, grub, but cleaning after,"—there's the "rub." Each kitchen holds a mass of work, no tidy little wife should shirk.

Gold Dust vs. Kitchen Worry

If those who stay up days and nights to win the cause of "Women's Rights" would only vote the GOLD DUST PLAN they soon would have the best of man.

The Gold Dust Twins Make the Whole World Brighter

More time for comfort and for smiles; more time to play a woman's wiles, for once the GOLD DUST TWINS appear, Hard Labor's cry you never hear; trail woman is a queenly soul who plays the "Take-it-Easy" role. Each GOLD DUST package sets her free by bearing out its guarantee, and never more those household woes that every weary woman knows. Pile up the dishes as you will, the GOLD DUST TWINS will clean 'em still. Old floors and woodwork sinks and pans, turn out as Master Cleaner Plans. From sun to sun, and chore to chore, your tasks will fret you nevermore.

The Gold Dust Twins

DEBUTANTE, BRIDE, WIDOW, MOTHER—AND ALL IN COURSE OF ONE SHORT YEAR

In January a gay debutante at the national capital; in February the happy bride of a young West Virginian who, a future, seemed full of promise; in April a widow, made so by the wreck of the Titanic which took her husband, but spared her; in November a mother—that is what the stars foretold for Miss Eloise Hughes, daughter of Congressman James A. Hughes, of West Virginia, just one year ago. She and young Lucien Smith were married in February, and were on the Titanic returning from their honeymoon trip to Europe when fate took him. Mrs. Smith is now in a Cincinnati hospital awaiting the birth of an heir, an event which will occur this month.

Possibly the population of the one may live there without knowing great cities grows rapidly because his neighbors.

WANTS \$400 LOVE POTION ANALYZED

MILWAUKEE, Wis., Nov. 22.—Fleeced out of \$400 of good hard-earned cash by a fortune teller, which he parted with for a "love potion," but which failed to work, a well dressed man of about 35 years attempted to secure an analysis of the fluid from the health department last night.

MURDERER ELECTROCUTED

COLUMBUS, Ohio, Nov. 22.—Paying the penalty for his part in the murder of three Italians at Kelly's Island in September, 1911, Dominic Salvaggio, 35, died in the electric chair at Ohio penitentiary early today. His partner in the crime was electrocuted last week.

Men never will be able to learn why they are prejudiced.

MANY DEER ARE BAGGED IN STATE

ASHLAND, Wis., Nov. 22.—While absence of snow makes the securing of deer much less easy than usual, still the hunters throughout northern Wisconsin are fairly successful and if snow should come the season will be better. Deer are coming into the city on every train and in the territory southwest of Ashland the hunters have had exceptionally good luck.

Many a man who howls for justice would probably try to sneak up an alley if he saw it coming.

When the average man does make an honest confession he makes it in strict confidence to himself.

The girl that can't sing and won't try to sing is a bird that any young man should be anxious to furnish a cage for.

SUES BECAUSE HE FAILED TO DIE

SPOKANE, Wis., Nov. 22.—Because he did not die, Goldblatt, a jeweler, brought suit yesterday against his physician, Dr. G. H. Rohrer, for \$15,000.

Goldblatt alleged in his complaint that Dr. Rohrer told him he had cancer of the stomach. Believing that recovery was impossible and wishing to leave his property in cash, Goldblatt states that he sold his jewelry business at a sacrifice he estimates of \$15,000, and waited for death to claim him. Becoming impatient at his continued presence among the living he consulted eastern specialists and was told that he was perfectly well.

Misquotation.

It is very surprising to find in the Charlotte Observer this misquotation of an old phrase, "Everything was lovely and the goose was hanging high." This is the way the uninformed commonality have come to write it, but in the Tar Heel country they know better. The right rendering is "the goose honks high," as the wild goose does when the weather is fine, or, in other words, when "everything is lovely."—Nashville Banner.

Small Boy as Conservationist.

A lecturer before a suburban woman's club raised his voice with emphatic confidence. "I venture to assert," he said, "that there isn't one in this audience who realizes the importance of the conserving of our forests, not one who has ever done anything to prevent the destruction of our forests." A small boy who had accompanied his mother to the lecture interrupted in a high, childish voice. "I once shot a woodpecker," he said.

TAKE "MOVIES" OF PANAMA CANAL

WASHINGTON, Nov. 22.—The first official moving pictures taken by the government of the Panama canal are now being secured by the house appropriations committee. A moving picture operator, and also a photographer from the United States geological survey, are members of the congressional inspection party touring the canal zone.

"Movies" of the big construction work are to be exhibited in capitol committee rooms this winter, to illustrate graphically the necessity for appropriations. Fortification plans will also be illustrated in the pictures.

Secretary of War Stimson, by a peculiar coincidence, is also inspecting the canal work while the house committee is looking over the project. A considerable part of the Secretary's annual report to the president this winter is to be devoted to the canal, as the Taft administration's "last word" on Panama.

It's foolish to talk of what a man should do when you know what he will do.

Health Restored By Eckman's Alternative

A Valuable Remedy for Throat and Lungs

If you are a sufferer from Glandular Tuberculosis, or know of anyone so afflicted, it might be well to investigate this case, where the writer declares after a year of suffering, he found permanent relief and full recovery to health by using Eckman's Alternative, a medicine which has been effective in many cases of Tuberculosis:

257 Laruston st., Phila., Pa.
"Gentlemen:—In March, 1909, I was taken sick and my doctor pronounced my case 'Tuberculosis in the Glands.' Medical treatment did not help me, and on my doctor's advice, I went to a hospital to be operated upon, but relief was only temporary. I lost strength and at times would have cold sweats and fever. In April, 1910, I returned to the hospital, but the continued operations were not benefiting me.

"In the meantime, a friend of mine advised Eckman's Alternative, saying it was good for Tuberculosis. The wounds in my neck were still open and in a frightful condition when I started to take it. After using two bottles, I found I was improving, having gained weight could eat and was able to sleep. I continued using it until I was well, which was in November, 1910. Before I took the medicine I had three hemorrhages; since I have been taking it, I have not had any. On November 11, 1910, I started to work, and since that time I have not lost one day's work through sickness. I can highly recommend Eckman's Alternative to anyone who is suffering from Tuberculosis or Gland trouble, providing they take it as directed. I will gladly correspond with any party desiring further information of what the medicine did for me."

(Sworn affidavit)

JOSEPH B. WHITE.
Eckman's Alternative is effective in Bronchitis, Asthma, Hay Fever; Throat and Lung Troubles and in rebuilding the system. Does not contain poisons, opiates or habit-forming drugs. For sale by Geo. E. Mariner, Chas. Beyschlag and other leading druggists. Ask for booklet telling of recoveries and write to Eckman Laboratory, Philadelphia, Pa., for additional evidence.—Advertisement.

ANTIGO TO BUY ITS WATERWORKS

MADISON, Wis., Nov. 22.—(Special.)—The state railroad commission has received a notification from the city of Antigo that the electors had decided by a majority vote to purchase the waterworks from the Antigo water works company. As soon as the proposal has been advertised for the required thirty days, the commission will check up the valuation of the plant. Inasmuch as the Antigo plant was valued by the commission a few years ago, it will take only a few days to complete the work.

The voters of Oshkosh on November 5 decided to purchase the water plant in that city, and as soon as the official notification of this action is received by the railroad commission, the work of valuing the plant will be started. Both the Antigo and Oshkosh plants are owned by W. G. Maxcy of Oshkosh.

PLAN COMMISSION FORM FOR COUNTY

MADISON, Wis., Nov. 22.—One of the proposals to come before the next legislature is the abolition of the present county board representation of one member for each town and city ward, and the substitution of the commission form. A resolution to this effect, to take the form of a memorial to the legislature, will probably come before the county board of Dane county this week. It is advocated by Supervisor Lowry of Stoughton, who claims the large membership of the board makes the system unworkable. He suggests a commission of three members, each having a good salary. The commission form for cities, he says, has demonstrated the feasibility of the plan for counties. Sentiment of the Dane county board is against the resolution.

SKULL AND BONES FACE SUPERVISORS

MILWAUKEE, Wis., Nov. 22.—Seated in the office of Supt. Ferdinand Bark at the county poor farm, about a table upon which rested a human skull and a heap of little bones, said to have been dug from the poorhouse cemetery to make room for new coffins, the special committee of the county board, named to investigate charges against the almshouse management, conducted the first day's session yesterday. It is alleged that coffins and their contents were dug up and burned to make more room in the county grave yard.

YOU NEED S.S.S.

Every sufferer of Rheumatism needs S. S. S. because this great blood purifier is a certain cure for the painful disease. Rheumatism is caused by an excess of uric acid and other corrosive, irritating impurities in the blood, which are carried through the circulation to the different portions of the system. This acid matter coats the nerves, muscles and joints with a fine, caustic deposit and the sharp cutting pains or dull, constant aches are produced. S. S. S. cures Rheumatism because it is a perfect blood purifier. It goes into the blood, neutralizes the acids, and dissolves the irritating particles and forces them out of the system through the natural excretory channels. Then all inflammation and swelling subside, the pains and aches cease, and not only is Rheumatism permanently cured but under the tonic effects of S. S. S. the entire health is benefited and built up. S. S. S. reaches inherited cases as well as those which have been acquired, and good results always follow its use. S. S. S. is an absolutely safe remedy because it contains no strong minerals to damage the system. It is made entirely of roots, herbs and barks. Book on Rheumatism and any medical advice free to all who write and request same. S. S. S. is for sale at leading drug stores.

The Twenty-second Annual Show to Be Held in La Crosse First Week in December

PLAN A WATER FOWL DISPLAY

Many Attractive Features to Be Given; Second and Main Streets

The twenty-second annual show of the Western Wisconsin Poultry association will open in La Crosse Dec. 3 and continue throughout the week according to the announcement of officers of the La Crosse association today. The show will be held in the Inland Printing company building, Second and Main streets.

Two judges have been engaged to distribute the ribbons, E. H. Hoffman of La Crosse, officer of the association and prominent poultry journalist, and Charles V. Keeler, Winomac, Ind., who acted as judge at the Mid-Western poultry show of Chicago.

Among the feature attractions of this year's meeting will be displays of Golden Barred Rocks, imported Belgium campines, Cornish India and many English varieties. The water fowl display promises to be another big feature.

Silver trophies valued at \$500 which are to be awarded will be placed on display at the Fay-Lewis Cigar store. Three cash prizes will be awarded for displays of eggs.

BAGS 1,000 POUND MOOSE
ST. PAUL, Minn., Nov. 22.—M. Sheffer today returned from a hunting trip to the northern part of the state. Sheffer bagged a record moose, the animal weighing over 1,000 pounds. It is one of the largest which has been so far recorded this season.

Joseph Bonaparte.
Joseph Bonaparte fled to America after the hundred days and bought a home in Philadelphia, where he lived in winter, and a mansion in New Jersey, where he passed his summers. He was much liked in this country, but could not make up his mind to stay here, so returned to Europe, hoping to profit by the changes of government in France. He was always disappointed and found himself an unwelcome guest in every country save England. He finally secured permission to live in Italy and died in Florence in 1844.

Bright Definition.
A teacher asked a boy the difference between an island and a peninsula. The boy replied: "Take a glass of water and a glass of milk. Catch a fly and put it in the water; it will be an island, because it is entirely surrounded by water. Put it in the milk and it will be a peninsula, because it is nearly surrounded by water."

Figure Blotters.
Dainty blotters for a girl's desk are made by cutting out and coloring a figure from cardboard. The colonial, hoop-skirted little ladies are the best. Face the back with blotting paper as well as the "easel-back" piece of cardboard fastened to her to stand her up that she may preside over the ink bottle.

Mixed.
A professor at one of the Australian universities informed his class that "the darkest hour in the day is in the middle of the night at 3 o'clock in the morning." On another occasion the same professor made his apology for the intricacies of a statement by adding, "I can't give you an easier explanation without making it more difficult."

Farmers' Wives.
Few men would admit that their wives know anything about business, but a great many will follow their advice and then take all the credit for themselves.

"Beat Harvard" has become the battle cry at Yale. For if the blue can overcome the crimson next Saturday the championship of the east will again go to Old Eli. URGES SUBWAYS TO PROTECT WALKERS

WASHINGTON, Nov. 22. — Underground subways for pedestrians to cross street intersections where traffic is congested and passage dangerous, is the suggestion made to American municipal officers by Consul General John L. Griffiths at London. Increase in street accidents has caused Consul Griffiths to forward his recommendation to this country for consideration.

Two such subways are being operated successfully in London, Griffiths declares. He says they would be more generally used if the inclines were more gradual and access easier. How motor vehicles are raising the death toll in London is a striking feature of Griffiths' recommendation. He says 410 people were killed and 15,000 injured by street vehicles last year in London. Of those killed, street cars ran down 26, motor omnibuses 107 and taxicabs and automobiles 155. In six years, the American Consul states, more than 2,000 Londoners have been killed in the streets.

M'MANIGAL RECALLED

NEWSPAPER MAN TESTIFIES THAT INNER CIRCLE OF UNION HANDLED DYNAMITING FUNDS

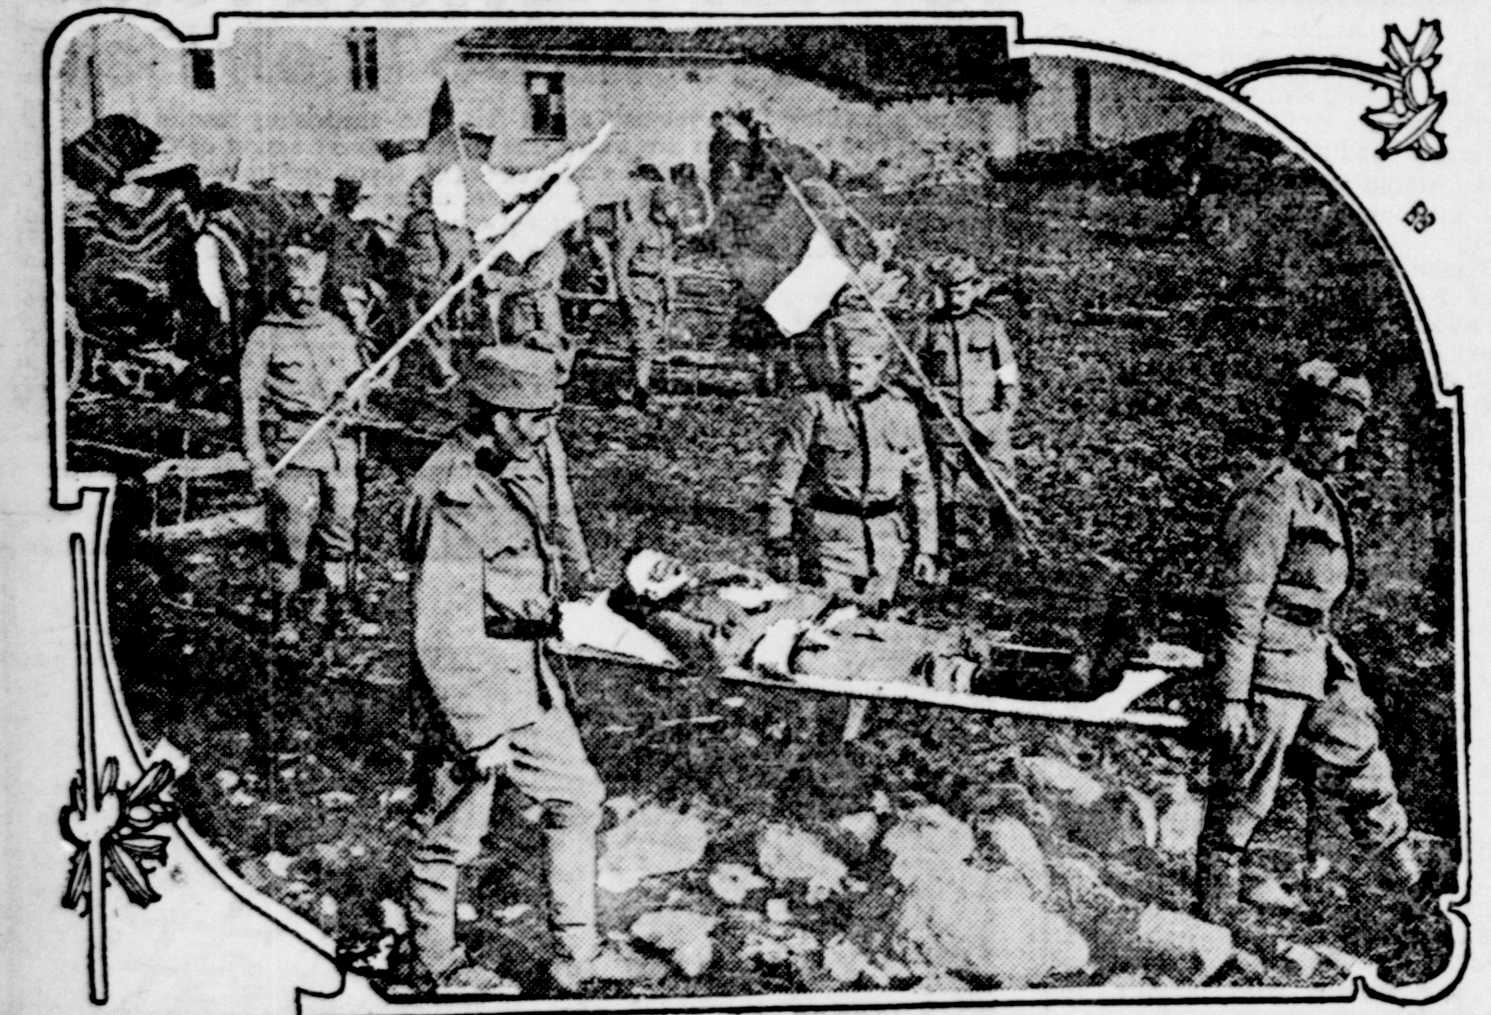

INDIANAPOLIS, Ind., Nov. 22.—Ortie E. McManigal was recalled to the witness stand on the dynamite conspiracy trial shortly before noon yesterday and resumed his confession of dynamitings.

He said he usually rode in the smoking car of trains when transporting nitroglycerine. One by one McManigal named the various railroads over which he traveled on his dynamiting trips from June, 1907, until his arrest.

That an "inner circle" handled the big "organization fund" which the government charges the McNamara spent for dynamitings, was the statement Defendant Henry W. Leichter is alleged to have made to Samuel A. Meyer, newspaperman from Cheyenne, Wyo., formerly of Denver, a witness in the dynamite conspiracy case.

Some people believe in doing only one thing at a time and then do the wrong thing.

WOUNDED SOLDIERS OF ALLIES NOT SUFFICIENTLY CARED FOR; MANY DIE IN HOSPITALS WHILE THOUSANDS ARE LOST ON FIELD

Wounded Servians being removed from the field.

War correspondents who are stationed in Serbia and Bulgaria report that the wounded soldiers of the allies are not being sufficiently cared for. Hospital facilities are inadequate to meet the situation. Many thousands have been wounded, and hundreds are dying who with proper surgical and medical treatment could be saved.

The losses of the allies in the field are also appalling. The flower of the Bulgarian army has been decimated. Peace will be welcomed by a people who have suffered such heavy losses.

MISSION PLANS TO HOLD A BIG FEAST

Many Will Be Fed Thanksgiving Day at Big Dinner for Poor at Mission Hall

The City Mission has announced the plans for its annual Thanksgiving celebration for the unfortunates of the city. There will be a big dinner at the Mission hall at noon, at which it is expected that at least 150 and probably more will be fed. For those who are unable to be at the Mission for the feast, Superintendent D. C. Dewey has made arrangements to supply baskets with a full "chicken and fixins" dinner in each. The baskets will be distributed the day previous to Thanksgiving day.

In the past, Mr. Dewey said today, certain families in the city have secured as many as two or three dinners on Thanksgiving by being on the lists of several different charitable organizations. This is to be prevented this year by a comparison of the list of all the different associations, to see that there are no duplicates. Miss Winifred Salisbury, agent of the Associated Charities will receive donations from charitably inclined persons for the Mission feast.

Mr. Dewey invites anyone who is willing to assist in caring for the poor of the city Thanksgiving day to call him up at the Mission and enlist.

Reasoning by Deduction.
A young English lady who was going out to New Zealand to get married went to a dressmaker for her trousseau. The dressmaker suggested a warm material. The young lady asked why, seeing that the climate of New Zealand is a beautifully mild one. The dressmaker replied: "I assure you, madam, you are mistaken, for that is where the frozen meat comes from."

SAYS HOG CHOLERA IS BAD IN STATE

Expert at University Declares Demand for Serum Far Exceeds the Supply

MADISON, Wis., Nov. 22.—(Special.)—There is more hog cholera in the state of Wisconsin than there has been for years. This declaration made by Dr. F. B. Hadley of the Wisconsin college of agriculture today, is predicated on reports received from all sections of the state. Last May the college began to manufacture anti serum for the prevention of hog cholera. The demand now far exceeds the supply. A map of Wisconsin upon which are designated the hog cholera outbreaks, hanging at the animal husbandry building at the university, shows the disease is prevalent in over half the counties, and no large portion of the state is immune. The worst outbreak is in Dane county.

"There is no danger to humans from this disease," said Dr. Hadley. "In my experience as a United States government official inspecting cholera, I cannot say that I have known of a single case where a human being has been affected. The disease is so prevalent that we have one field man at work and should have more."

Dr. Hadley said that the disease could be prevented but that cholera can not be cured after the hog has become seriously ill. Hogs are made immune from the disease by injection of an anti serum composed of the blood of healthy pigs which have been through a siege of the cholera. This blood is obtained by cutting off the end of the pig's tail until by successive bleedings no more of the tail remains. The pig is then killed to get the last ounce of blood. Enough blood can be obtained from a pig to treat about 400 hogs that weigh less than 100 pounds each. At the regular commercial rate for anti serum enough blood from a pig can be sold to realize \$250.

"Among the things first noted in an outbreak of hog cholera is the refusal of feed by a number of hogs," said Dr. Hadley. "They have chills and are depressed, stiff and sore; there is a tendency for them to hide in the bedding. A short, hacking cough will frequently be noted. In most cases hog cholera runs a rapid course, ending in death about two weeks after exposure."

DEMANDS SUIT FOR SHORTWEIGHT HORSE

MILWAUKEE, Wis., Nov. 22.—A south side woman wanted the city sealer to prosecute a horse dealer on Thursday for "short weighing" her in the sale of a horse.

The woman declared that she had bought the horse as perfectly sound and that the next morning the animal was "puffing like a bellows." She was disappointed when told that the department had no jurisdiction in the matter.

STOCK SHOW TO BE FEATURE OF STUDY

Livestock Exposition Will Mark University of Wisconsin Short Course

A monster live stock exposition will be one of the main features of the two weeks' farmers course which will be given in Madison early in February. The Wisconsin Live Stock Breeders' association and the auxiliary or breed organizations will cooperate with the Wisconsin college of agriculture in assembling and exhibiting this representation of the breed. Each of the state breeding associations will be asked to loan the managers of the exposition a certain number of animals which shall be typical of that breed. This stock will be attractively displayed in comfortable booths arranged for that purpose in the exhibition hall of the university live stock pavilion. In this way students, farmers and towns people will be given an opportunity to acquaint themselves with the true—at least the most commonly accepted and most popular types of each breed. The national registration associations, too, will be invited to equip booths and to have representatives on hand to acquaint those in attendance with the merits of the breed they represent.

Already breeders of Holstein, Guernsey and Brown Swiss cattle have promised to send in suitable animals to be placed on exhibition, and Robert B. Oglivie, secretary of the American Clydesdale Breeders' association has promised to secure the loan of the Union Stock Yards gelding, Ivanhoe, which was at one time one of the "wheel" horses on the famous six-in-hand Clydesdale team shown in this and other countries by the Nelson Morris company. William H. Caldwell, of Peterboro, N. H.; F. L. Houghton of Brattleboro, Vt.; and Ira Inman of Beloit, Wis., secretaries respectively of the American Guernsey Cattle club, the Holstein-Friesian Association of America, and the American Brown Swiss Cattle Breeders' association, will in all probability attend the course themselves and address several of the sectional meetings. All of these men have already promised to co-operate fully in this important event and are hopeful that they may be able to meet Wisconsin stockmen at the time of the midwinter meetings.

The following Badger breeders have been appointed members of the exposition committee: Eben E. Jones, Rockland, secretary of the Wisconsin Poland China and Shorthorn Breeders' association; Charles L. Hill, of Rosendale, secretary of the Western Guernsey Breeders' association and president of the American Guernsey Cattle club; Ira Inman, Beloit, secretary of the American Brown Swiss Breeders' association; H. A. Martin, Gotham, secretary of the Red Polled Cattle Club of America; Frank Harding, Waukesha, secretary of the American Cotswold Breeders' association; W. F. Renk, Sun Prairie, secretary of the Wisconsin Sheep Breeders' association; Andrew W. Hopkins, Madison, editor of the Wisconsin Farmer and secretary of the Wisconsin Live Stock Breeders' association; George McKerron, Pewaukee, superintendent of the Wisconsin Farmers' Institute; A. G. Austin, of Janesville, secretary of the Wisconsin Ayrshire Breeders' association; John G. Goss, Elkhorn, secretary of the Wisconsin Holstein-Friesian Cattle Breeders' association; Malcolm H. Gardner, Delavan, superintendent of Advanced Registry of the Holstein-Friesian association of America; H. G. Sigelkow, Macfarland, secretary of the Wisconsin Duroc Jersey Breeders' association; William F. Belda, DeForest, and Clarence Potter, Lyons, breeders of Chester White Swine; James G. Fuller, Madison, secretary of the Wisconsin Horse Breeders' association; Dr. A. S. Alexander, Madison, secretary of the Wisconsin Stallion Registration Board; Hugh Robinson, Evansville, breeder of Hereford cattle; James McKenzie, Madison, secretary of the Wisconsin States Board of Agriculture; Fred Stubble, Black Earth, secretary of the Wisconsin Jersey Breeders' association; C. SPOTLIGHTS

"THE LIGHT ETERNAL" The wheels of time will turn backward some sixteen hundred years at the La Crosse theater, November 23, matinee and night and disclose the mighty struggle then enacted between Christian and pagan—the all-powerful Caesars striving to crush the followers of the lowly Nazarene—as portrayed in "The Light Eternal," a spectacular devotional drama of the third century, now in its fifth successful season.

Invariably at the close of the big third act the audience is leaning forward in their seats grasping every word as the thrilling story comes from the players' mouths, and moved as one seldom sees an audience in any playhouse. It is a triumph of right over might in the play, and a triumph for the cleaner drama so far as the theater and the audience is concerned.

"FRECKLES"

The dramatization of Gene Stratton-Porter's "Freckles," has proven that there is no end of success to good, clean, moral plays. It is to the credit of A. G. Delamater, he of "Beverly of Graustark" and other successful plays, who first saw the possibilities of Mrs. Porter's work, and now it stands as one of the substantial successes of the past decade of theatrical history.

The author has given "Freckles" a perfect stage investiture, and there will be found nothing wanting in the matter of scenery, accessories or cast; it is up to the required standard of a Delamater production, and that should be sufficient. It will be seen at the La Crosse theater Sunday, December next, matinee and night.

The more important cases on the calendar for the fall term of court were granted change of venue, that of M. R. Munson vs. Alex Anderson, for \$10,000 damages for slander and libel, being changed to La Crosse, and the insurance cases, Crawford County bank vs. the Providence Insurance company, the German-American Insurance company and the National Fire Insurance company, to Madison. The case of A. F. Croom vs. the Village of Steuben was continued.

DAYLIGHT BURGLAR ROBS OLSON HOME

Cash and Jewelry Taken
While the Family
Is Away from
House

POLICE ARE ON THE TRAIL

Large Sum of Money on the
Upper Floor Is Not
Found by the
Thief

While all the family were away from home Wednesday afternoon some jewelry and \$38 in money were taken from the residence of Louis Olson, 2,000 Wood street.

When the family returned about 4 o'clock it was found that the screen in the pantry window had been removed. The window had been left partly open and by removing the screen the burglar forced a means of entrance. Some meat and groceries were left on the shelf directly below the window and these were found on the floor later.

Neighbors asserted that they had seen a man who appeared to be a hobo in the back yard of the Olson home Wednesday afternoon but nobody saw him enter the house. It is thought that this was the man who committed the robbery.

Mrs. Olson left the house about 2 o'clock Wednesday afternoon and John Olson left about 2:45. One of the boys returning from school at 4 o'clock found that the house had been robbed. Mr. Olson thinks that whoever entered the house saw the family leave and knew that there was nobody at home.

When the family returned one of the rugs was found torn up and it was soon evident that the entire floor had been gone over by the burglar. In a small box in the sideboard was \$38 in cash and this was taken along with two silver spoons. A pair of pearl cuff buttons and a pin of the Brotherhood of Railway trainmen was also missing.

The second floor of the house was not touched by the burglar who evidently was in a hurry. There was \$300 in cash upstairs which the thief did not find. The robbery has been reported to the police who are now looking for clues as to the identity of the burglar.

Young men's overcoats in all the latest styles belt in back or belt all around, special Thanksgiving sale values at \$10.00, \$12.50, \$15.00 and \$18.00. The Continental Clothing House.

Australia's Tallest Tree.

The tallest tree in Australia is probably one of the eucalyptus amygdalina regnan species, which was found some time ago on a spur of Mount Baw Baw, in Gippsland. Victorian experts now have ascertained the height of the tree to be 326 feet 1 inch. Its girth at 6 feet from the ground is 25 feet 7 inches. A tree of the same species discovered at Neerim, also in Gippsland, while only 227 feet high, has a girth of 55 feet 7 inches at 6 feet from the ground.

Kodak Booklets.

A Kodak owner printed some good negatives in soft sepia shades and mounted them in books made from heavy tinted paper, tying the booklets with pretty ribbon. An aunt, who never saw a mountain, enjoyed pictures of South Cheyenne canyon, Colorado. Another liked the homes of several relatives. Grandmother enjoyed a variety of snapshots of her grandchildren. A dozen negatives can be made in very short time and will cost less than \$1.—Woman's Home Companion.

Unwelcome Guest at Funeral.

A five foot long snake was the unwelcome guest at a funeral at Katzi, Victoria, Australia, a few days ago, and its appearance caused the wildest confusion and panic amongst the mourners. It was only after great difficulty that the reptile was killed. The funeral service proceeded without further interruption.

Artificial Turquoise.

From ivory, which shows no grain, pieces of the size of the turquoise desired are shaped and left for 14 days in a saturated solution of ammoniacal copper oxide in water, then rinse and dry them. If the color of the turquoise is not deep enough, the operation may be repeated.

Stork Partial to Miner's Domicile.

There seems to be an especial affinity between the stork and the family of Frank Bartofski, a miner at Dickinson City, Pa. In ten years the bird has brought 12 babies, including three pairs of twins, and one set of triplets. Ten of the children are living.

Somewhat Contradictory.

One of the new books of reference states in its preface that the "names received too late for insertion will be found in the appendix." This reminds us of an Australian editor's contemptuous note to a correspondent:—"Your letter is so scurrilous that we omit any reference to it."

FRANKLINS FAVOR TWO BATTLESHIPS

Debating Society Takes
Stand that United States
Should Increase the
Navy

A unanimous verdict in favor of the affirmative of the question, "Resolved, that the United States should build at least two battleships each year," was returned by the Franklin club jury last evening when the regular weekly debate was held. George B. Marvin, Jr., C. F. Figgie and Professor H. G. Hayden upheld the affirmative while J. P. Saltz, Otto Schlabach and R. V. Ahlstrom sustained the negative.

In all probability the club will discuss the question, "Resolved, that W. J. Bryan should be a member of Woodrow Wilson's cabinet." Dr. A. R. Kempter will uphold the affirmative of the question and P. W. Mahoney will lead the discussion for the negative.

Special Thanksgiving sale values in overcoats at \$10.00, \$12.50, \$15 and \$18.00. The Continental Clothing House.

GOPHERS IN PRACTICE

MINNEAPOLIS, Nov. 22.—Yesterday afternoon Dr. H. L. Williams sent the Minnesota football squad through their last signal practice of the year up on Northrop field. The eleven left for Chicago last night where it will play the last game of the season Saturday against Coach Stagg's men. All of the players are in good shape except Erdahl, who is still limping but may get into the Chicago fray. Friday night the Minnesota band, freshman team and a number of students will leave for Chicago. Rooter Leader Ralph Johnson will go, being voted a trip by the athletic board.

URGES U. S. PRICE CONTROL

CHICAGO, Nov. 22.—John H. Lux, president of the National Retail Grocers' association, advocated federal control of food prices in an address before the fourth annual meeting of the American Specialty Manufacturers' association. He also spoke of the limited opportunities for young men at this time because of 'big business.'

"Opportunities are becoming so circumscribed by big business methods," he said, "that the only opening left for a young man is to become a farmer, servant or retail merchant."

Extenuating Circumstances.

The judge told the lawyer to stand up. "While your contempt of court was clearly expressed," he said, "I am going to give you the benefit of extenuating circumstances. In all my official connection with you I have never heard you use the expression 'iota of proof.' Discharged."

To Keep Nuts Fresh.

If walnuts or any other kind of nuts are packed in layers of sand and kept in a cool place, they will keep fresh for an indefinite period. Soak them in warm water for an hour before using if you would have them peel as if they had just been gathered fresh from the tree.

Give the Best.

Every normal person is born with a message for humanity, with a sacred obligation to give his best to the world. Your talent was not given merely to provide the necessities and luxuries of existence, but to make the world a little better place to live in, to pay your debt to humanity, to make the largest possible sum total of a soul.—Becker.

There Are Others.

In our adolescent inexperience we cherished the notion that hotel clerks and book store attaches were the most conspicuous of the unintelligents. Yesterday, however, a telegraph operator objected to our using "juxtapose" in a night letter. "We don't allow code words," said he. And for the life of us we couldn't think of a snappy comeback.

Education Through Toys.

Noah's arks, skittles, tea sets, tin animals, steam rollers, fire engines, tops, croquet sets, dominoes, dolls, spades, skin and wooden animals, balls, boxes of bricks and A. B. C blocks are among the toys recommended by the London county council education committee for the schools.

May Have Been Cook's Cannon.

Much interest has been roused in Australia by the finding of a cannon, which is supposed to have been jettisoned from Captain Cook's ship, the Endeavor. The relic was found on the Queensland coast.

HIGH SCORES MADE IN PIN TOURNAY

Some of the best bowling of the season was done last evening when the Old Styles won two out of three games from the Nelson Clothing company team at the Combination bowling alleys.

By making a score of 905, which is one of the best scores of the season, the Nelsons took the first game but the Old Styles came back strong and won the next two straight by good margins.

The total score for three games for the Old Styles was 2,561 while the Nelsons were but twenty-four behind them as they had a total of 2,537.

Bollrud of the Old Styles and Williams of the Nelsons were the stars of the evening, the former making 245 and 204 while Williams made 242 and 208. Dockendorf made 212 and Ritter made 205, while Smith made 204, this making five men who made scores of over 200.

PRIESTS PREVENT PANIC

LOWELL, Mass., Nov. 22.—A panic among congregation composed chiefly of women and children was prevented when Rev. Father Darron dismissed them following the discovery of a fire in the cellar of St. John the Baptist's church, the most imposing Catholic edifice in the city. He told the audience that there was a fire next door and remained at the altar until all had passed out. With the assistance of the other priests he carried to safety the sacred relics and church treasures. The edifice was destroyed.

LIVING MARBLES TRIUMPH OF ART

Paul Seldom's Posing Act at the Majestic Feature of Menu of Good Things

Artistic originality is a rarity, and it is doubly rare when it can be captured in a vaudeville act and made a popular headliner on the circuit. This is just what Paul Seldom has done with his living marble, the feature turn at the Majestic theater this week. Heading a genuinely excellent bill, this act stands in a class by itself in an exhibition of the art of immobility in a rapid-fire of a dozen statue-pictures in White Marble.

THE LAWS OF NATURE.

The laws of nature are just, but terrible. There is no weak mercy in them. Cause and consequence are inseparable and inevitable. The elements have no forbearance. The fire burns, the water drowns, the earth buries. And perhaps it would be well for our race if the punishment of crimes against the laws of nature—were man as unerring in his judgments as nature.—Longfellow.

TO TEACH FARMERS HOW TO RAISE CORN

Prof. Perry G. Holden, formerly a dean in the Iowa State Agricultural college known as an authority on corn, has been made head of the bureau. It is understood the Harvester company has set aside \$1,000,000 for this work.
Prof. Holden has done much for Iowa and is known as the Burbank of the cornfield. His work from now on will be nationwide.

LIVING MARBLES TRIUMPH OF ART

Paul Seldom's Posing Act at the Majestic Feature of Menu of Good Things

Artistic originality is a rarity, and it is doubly rare when it can be captured in a vaudeville act and made a popular headliner on the circuit. This is just what Paul Seldom has done with his living marble, the feature turn at the Majestic theater this week. Heading a genuinely excellent bill, this act stands in a class by itself in an exhibition of the art of immobility in a rapid-fire of a dozen statue-pictures in White Marble.

Ryan and Lee, in a singing, talking and dancing specialty, present an act that is one of the best of its kind that has appeared at the Majestic. The woman member of the team has a novel and original personality and a unique manner which puts her stuff over the footlights in great shape. The team are both good dancers.

Manley and Sterling got a great hand last night when they finished their musical travesty "Nearly a Hero." They have a lot of burlesque of "mellordrammer" which is sidesplitting. Their real hit, however, was in their harmony singing. They have several new songs and parodies which are sung charmingly.
Libby, with the cycle, presented an act which was remarkable for the number of new stunts. He performed hardly a single trick of bicycle riding that is old. Nearly everything he did was extremely difficult, and he deserved the applause he received.

Miss Marie Rossi did a creditable pianologue, and made her greatest score when she kidded the orchestra and a member of the audience, who were obviously embarrassed by the spotlight.

Fuller's Earth.

The cleansing properties of fuller's earth are not as well known as they should be. When grease has been spilt on the carpet make a paste with boiling water and equal parts of fuller's earth and magnesia, apply to the stain while hot and allow to dry. It will take out the grease entirely. To remove grease from the floor make a paste as above and cover the spots with it; when dry remove and renew if necessary. Two or three applications will destroy all traces of ugly spots.

When Paris Was Dirty.

Paris was not always as clean as it is nowadays. In 1348 King John of France made the request that Parisians should not allow their pigs to roam the streets. Charles VI. (1368-1422) complained that the practice of throwing rubbish into the Seine made it a "great horror and an abomination to look upon." Until the seventeenth century everybody who could went about Paris on horseback in order to avoid contact with the filth of the streets. Various ordinances were made to compel the people to sweep the road before their own doors, but it was not until 1791 that the dust cart became an institution.

VIOLENCE.

Violence ever defeats its own ends. Where you cannot drive you can always persuade. A gentle word, a kind look, a good natured smile, can work wonders and accomplish miracles. There is a secret pride in every human heart that revolts at tyranny. You may order and drive an individual, but you cannot make him respect you.—Hazlitt.

SOCIETY

Y. W. C. A. PAGEANT TONIGHT
Preparations are now complete for the production of "The Pageant of Nations" to be given by the Young Women's Christian associations of the city and the normal school at the normal auditorium tonight.

This is one of the most elaborate productions attempted by the local associations and much effort and time has been expended to make it a success.

The pageant consists of four plays showing what the Y. W. C. A. is doing for stricken womanhood in foreign countries. Two of these plays, China and India, are to be presented by the city association and the remaining two, Japan and South America, by the normal association.

In the finale a chorus of over one hundred voices will render an adaptation of the "Pilgrim's Chorus," and the normal orchestra will also assist. The chorus and orchestra are under the direction of Miss Harriet Oltman.

ROWENA CIRCLE MEETS

Rowena Circle, Brotherhood of American Yeomen, held their regular meeting in Linker hall Tuesday afternoon. Thirty-eight ladies were present. Progressive clench was played and prizes were awarded to Mesdames Wagner, Whipple, Thattow, Reichelt, Foster and Lee. The ladies have decided to give a public card party in Linker hall next Monday afternoon. Progressive clench will be played.

ST. MARY'S BAZAAR

There will be an oyster supper tonight in the dining room of St. Mary's school in connection with the bazaar, which has been running all of the week. Crowds have been in attendance every day. Tomorrow will be the last day. Winners of the various prizes will be announced in the evening, so it will behoove every one having tickets to be promptly on hand.

SOCIAL BRIEFS

TO ATTEND BROTHER'S WEDDING

Miss Celesta Rupp has gone to St. Paul to attend the wedding of her brother, Mr. F. C. Rupp, who will be married Saturday, November 23, to Miss Nora E. Conway. The wedding will take place at the home of the bride.

Happens Once Every 2,500,000 Years.

A remarkable freak in moon phases was noted in the month of February, 1906, a month which has gone into astronomical annals as "the month without a full moon." In that year January and March each had two full moons, but February none. A writer in a leading astronomical journal used the following language in describing it: "Do you realize what a rare thing in nature it was? It has not happened before since the beginning of the Christian era or probably since the creation of the world! It will not occur again, according to the computations of the astronomer royal of England, for—how long do you think? Not until after 2,500,000 years from 1866!"

CUTLER BEATS FOREIGNER

CHICAGO, Nov. 22.—Charley Cutler, who claims the heavyweight championship of America, today had bested one aspirant for that honor. In a rough, gouging, pulling and tugging bout, Cutler vanquished Bob Managoff of Asia Minor, putting the foreigner on his shoulder twice in succession.

PULLMAN QUARANTINE

NINE PASSENGERS ARE SHUT UP IN CAR ON SIDETRACK BECAUSE ONE HAS SMALLPOX

DENVER, Colo., Nov. 22.—A Pullman sleeper, with nine passengers aboard, is lying on a side track at Castle Rock, thirty miles from here, and will have to remain there for two weeks because R. C. Jones, one of the nine, has smallpox.

A conductor was sent by the railroad to remain with the party, while a Pullman porter will prepare the meals for the imprisoned passengers. Included in the party are four women, four men and a boy. One of the women, Mrs. E. W. Fox of El Paso, was rushing to Deadwood, S. D., to be at the bedside of her son, who on Tuesday underwent an operation for appendicitis.

A \$4.00 DICTIONARY FOR EVERYBODY PRESENTATION

THE TRIBUNE herewith presents an opportunity unequalled in the history of publishing. It is one of a syndicate of newspapers which have had the wonderful opportunity of securing for a limited time the entire advance edition of the most modern dictionary published, enabling them to inaugurate a great educational campaign of national scope. This NEW dictionary has been agreed upon as the means of carrying out these plans, as it meets every requirement. It is the LATEST dictionary of the English language; it is of convenient size; it is the BEST dictionary of the kind published; it is not yet sold at stores, as these newspapers have arranged to take the entire output up to the time selected by its publishers previous to its sale at stores at its list price. Thus we are enabled to give our readers the benefit, as is shown in this announcement. Read every word of the following, and lose no time in taking advantage of this great opportunity.

General Description

This NEW Modern English Dictionary supplies the demand for a RELIABLE and CONVENIENT dictionary of the English language. The highest authorities have been consulted and eminent specialists have been brought together to make this book AUTHENTIC and COMPLETE in all respects.

While based upon the ORIGINAL work of NOAH WEBSTER, it is brought up to the PRESENT in every particular. All pronunciations are MODERN and are plainly indicated by phonetic spelling; the definitions are comprehensive, though concise; the type is large and clear; each page carries a running keyword which shows the first and last word defined on that particular page, thus avoiding the use of a cumbersome thumb-index; instead of meaningless text pictures, the entire work is profusely illustrated with full-page color-plates, monotones, and duograph charts; following the dictionary proper is a Reference Library which in itself is a complete treasury of facts for everyday use.

The world's greatest authorities on the English language are to be found in American universities and colleges, and from these sources came the knowledge set forth in the NEW WEBSTERIAN. The editor-in-chief, Prof. Harry Thurston Peck, Ph. D., Litt. D., LL. D., has long been recognized as the foremost lexicographer and authority on languages and literature. Among the editorial contributors are Albert Stanburrough Cook, Ph. D., LL. D., professor in Yale University; John C. Rolfe, Ph. D., professor in the University of Pennsylvania; and President of the American Philological Association; Prof. Theodore W. Koch, Ph. D., D. Sc., of the University of Michigan; Prof. Charles F. Johnson, A. M., Ph. D., of Trinity College; Prof. Donald L. Clark, A. B., of De Pauw University; John S. P. Tatlock, Ph. D., professor in the University of Michigan; and J. A. Joffe, A. M., consulting expert to the Congressional Library at Washington, D. C.

A collection of 12,000 Synonyms and Antonyms has been arranged by Lillian H. Du Bois, Instructor in the Wharton Combined School of Philadelphia. This is an entirely new list which comprises far more Antonyms than have ever before appeared in a similar collection.

Aviation and Automobile Terms

In addition to the foregoing are glossaries of Aviation and Automobile terms, prepared by Alfred W. Lawson, Editor of AIRCRAFT, and Julian Chase, Ph. B., Editor of MOTOR. From such able authorities, one may be assured of the latest pronunciations and definitions in these departments.

Other important sections are ably edited by Prof. Frederick Taber Cooper, LL. B., Ph. D.; Prof. Robert Arrowsmith, Ph. D.; Prof. C. L. Meader, Ph. D.; and Robert Gordon Grant, A. M., Ph. D. Such an array of efficient authorities never before came together, and the grand result is a PERFECT dictionary of the English language accurate, authentic, complete. It is UP-TO-DATE—the dictionary of TODAY—a positive means for ADVANCEMENT in this PROGRESSIVE age.

The NEW Modern English Dictionary, illustrated, is just off the press—it is new throughout, newly edited, newly compiled, newly printed from new type, with all the NEW WORDS, with its pronunciations and definitions brought UP TO DATE, with everything pertaining to it the VERY LATEST. It is the best possible to obtain at any price. Who does not NEED a NEW dictionary? But what is a NEW dictionary? Putting a new cover on old contents makes a new book, but it does not make a new dictionary. Adding a few modern words to plates of ancient date does not bring the work up to the present. But a NEW compilation IS a NEW dictionary.

Chicago Grain Review
CHICAGO, Nov. 22.—Wheat futures were under pressure during most of the day, although there was sufficient demand to hold prices about steady with yesterday's close. Late cables from Liverpool reflected an easier feeling abroad, following announcement in London that the Balkan allies would accord more favorable peace terms.

The early selling movement in wheat was followed in the corn pit and prices suffered slightly. The bullish aspect of the local situation was felt in the later trades.

Oats futures started a shade higher, but eased off later.

Provisions were lower.

Everett Shinn, the painter and wit of New York, scored off an enemy at a tea in New York. To this enemy, himself a painter of the Bouguereau school, Mr. Shinn said:
"How many pictures have you painted in the course of your long and honorable career?"
"I haven't the least idea," was the reply.
Mr. Shinn laughed maliciously. "Some day, then," he said, "I'll come around to your studio and count them."

Prognostics.
The Cinnamon Scimitar's financial editor writes: "The dental profession is looking down in the mouth. With the scavenger, however, everything is picking up. The steeplejack's business, if he is not careful, will be falling off. In the automobile and railroad line everything is running down. The sausage and scrapie trade is on the pig. With the astronomer, however, things are looking up."

Bible Was Put into Rhyme.
Versifications, not only of the Psalms but of the other books of the Bible, were numerous in the sixteenth century. One of the most prolific versifiers was William Hunnis, who, under such fanciful titles as "Seven Sobs of a Sorrowful Soul for Sin," "A Handful of Honeyuckles," "A Hivelf of Honey," etc., published a number of rhyming versions of Genesis and Job, which are now worth their weight in gold to the bibliomaniac.

Share Life of Apes.
As a modern example of an absolutely primitive race of people, Prof. W. Volz of Breslau university has brought to notice the Kubus, who are completely isolated in the forest interior of Sumatra. They share the life and habits of the apes in the same forest.

Peacocks' Feathers.
Peacock feathers are said to bring ill luck. The origin of this tradition is interesting. It is found in Palgrave's work on central and east Arabia, where the traveler says that, according to Mohammedan tradition, the peacock opened the wicket of paradise to admit the devil and received a very ample share of the devil's own punishment.

SUPERINTENDENT IS SCORED BY BOARD

One Man Control of County
Schools Keeps System
in Politics, Report
Says

THEY URGE THREE MEN BOARDS

Members Elected by Plan
Suggested by Commis-
sion Would Not
Be Paid

MADISON, Wis., Nov. 22.—(Special.)—One county superintendent declared to an investigator for the state board of public affairs that it cost him \$400 to be elected and his opponent \$1,000 to be defeated. Yet in 1911 the salaries paid to county superintendents were:

Less than \$800, 5; \$800-\$1,000, 33; \$1,000-\$1,200, 25; \$1,300-\$1,400, 4; \$1,500, 4; \$1,800, 1.

The report on rural schools says more definitely that the county superintendent is responsible to no one who can judge his efficiency and that his responsibility to the electorate can be evaded through the usual methods of "politics." He fails to condemn people for failure to provide decent school and equipment because those people would oppose his re-election. "The greater the need for rigorous action," says the report, "the more dangerous it is for the county superintendent to do his duty."

Supervision Inadequate
The report points out that the supervision of schools by county superintendents is hopelessly inadequate, that the unrestricted power to certify teachers, held by the county superintendent is a source of great weakness, that the salaries are insufficient, that the enforcement of the truancy law is not effective, a systematic use is not made of records in supervising schools, attendance and teachers.

Superintendent Cary in his last report said:

"There is no adequate supervision of these schools. As a rule the county superintendents find it impossible to visit the schools more than once a year and then for a brief time. Many of these visits come toward the end of the school year. The teacher is thus thrown almost wholly upon her own resources, and one out of every three or four teachers on the average is doing her first year's work and in many cases never saw the inside of a country school before."

Standard Varies
The standards for accepting examination papers varies widely. "A grade of 50 is acceptable as a passing mark in some, 60 and even 70 in others. The question used by county superintendents are supplied to them already printed by the regular supply houses. Advantage is taken of the opportunity for favoritism and undue influence. One county superintendent said to the investigator that a predecessor in office would issue a license to any candidate he would name, even if it were a two year old child. Many county superintendents have said about the other fellow that "any body can get a certificate who is related to one or more voters."

To remedy this situation the state board of public affairs recommends the creation of a county board of education and the appointment by this board of a county superintendent to assist this board in selecting county superintendents, it is recommended that liberal state aid be granted, so that more attractive salaries be offered. It is further recommended that professional certification of superintendents be adopted. The words of the report are:

Recommendations
1. That county boards of education be elected at the general school election.

To consist of three members to serve six years.

To serve without salaries. To appoint the county superintendent from an approved list made up by the civil service commission.

To control county schools of agriculture and county training schools for teachers.

To pass upon the centralization of school districts.

To advise the superintendent to withhold state aid from small and inefficient schools whenever in its judgment the facts warrant it.

To appoint an assistant to the county superintendent whenever the number of teachers in his district exceeds eighty.

2. That state aid be given to county boards of education to assist in the proper maintenance of the office of county superintendent on condition that

An adequate salary is paid to the county superintendent.

An efficient clerk is appointed. The county superintendent demonstrates efficiency to the state department of public instruction.

ARABS USE MACHINES

WASHINGTON, Nov. 22.—How Arabian women in far off Aden are using the same sewing machines in universal vogue in America is the unique "Arabian Nights" tale recited to the state department by Consul Walter H. Schulz, of Aden. He says there are 1,500 sewing machines in use in Aden, the home of Oriental rugs. Many of these are supplied by German manufacturers, and the American make shipped from branch houses of American exporters in Bombay of Egypt.

Extreme poverty of the Arabians generally prevents their purchase of more American machinery, Consul Schulz says, only the very wealthy Arabians being able to afford an American sewing machine.

An Everyday Cake

Here is a simple and inexpensive cake that can be varied in many ways with different frostings and icings. It looks a little nice baked in a tube pan, but will be equally as good baked in a square loaf.

K C Gold Cake

By Mrs. Janet McKenzie Hill, Editor of the Boston Cooking School Magazine.
1 cup butter; 1 cup sugar; yolks of 4 eggs, beaten light; 1 cup flour, less 1 level tablespoonfuls; 2 level teaspoonfuls K C Baking Powder; 1 cup milk; grated rind of 1 orange.

Sift flour and baking powder together three times; cream butter and sugar, yolks of eggs, add these to creamed mixture, and lastly add the moisture and flour alternately, beating batter until smooth. Gold Cake can only be made successfully by beating yolks of eggs, very, very creamy and light lemon colored, using a rotary beater. The rotary beater is the only beater that will do justice to the yolks of eggs. The beating kills all egg taste and improves the texture of the cake.

Cocoanut Frosting

Beat the whites of 2 eggs dry; gradually beat in half a cup of sifted confectioner's sugar and continue the beating until frosting is smooth, thick and glossy; then add 1 grated coconut, fresh or prepared, and spread upon the cake. This frosting is made thick by beating rather than by sugar.

Save this recipe. You will want to use it frequently. Or better, send us the colored certificate packed in each 25-cent can of K C Baking Powder and we will mail you "The Cook's Book" containing this and 89 other baking recipes equally good—all by Mrs. Hill, Jacques Mig. Co., Chicago.

AGRIC SCHOOL TO CONDUCT MEETINGS

Entire County to Be Covered; Farmers' Clubs Will Be Organized

The county agricultural school during the next few weeks is to conduct a series of meetings for farmers that will cover the entire county. The school will promote the organization of a Farmers' club at each meeting so that each community will have a working body to meet regularly and conduct programs in the future. The general plan of each of the meetings is to have something that will be of interest to each member of every family, so that all will come together and work out the plans for the community organization.

The first of these meetings will be held at Holmen, Saturday, Nov. 23, and will include a forenoon, an afternoon and an evening session. A separate section will be held for the interests of the girls and women aside from that offered for the work of the boys and the men. The entire program is to be carried out at the Holmen Opera hall. The Ladies Aid society of the Holmen church will serve dinner at the noon hour at the hall. Let every one in and about Holmen turn out for the day and give the work and the life of the farmer and his family "a boost."

TO IMPROVE CLUB

MADISON, Wis., Nov. 22.—Plans have been drawn for building large additions to the University club in this city. With the opening of the newly built wing, this, it is claimed, will be the largest University club building in the country. It will contain 290 rooms and will have a resident and non-resident membership of 2,000 persons.

TESTERS' LICENSE VOID

MADISON, Wis., Nov. 22.—(Special.)—Under a recent ruling of the Wisconsin Livestock Sanitary board, all licenses of layman cattle testers were declared null and void after January 1, 1913. To be eligible to test cattle in Wisconsin after that date, new licenses must be secured, and the board has arranged to hold examinations as follows:

November 25 at Milwaukee county school of agriculture, Wauwatosa, and at Winnebago county school of agriculture, Winnebago; November 26, at Racine county school of agriculture, Rochester, and at the Stephenson training school, Marinette;

December 7, at Dunn county school of agriculture, Menomonie; December 9, at La Crosse county school of agriculture at Onalaska; December 11, at Marathon county school of agriculture, Wausau; December 13, at Ashland, and December 18, at Agricultural hall, University of Wisconsin, Madison.

These examinations will be open to anyone desiring to take them, whether they now hold permits or not.

EXPECT A CONFESSION

OFFICIALS PREDICT THAT MAN
ACCUSED OF MURDERING
LACKAWANNA BOY WILL
BREAK DOWN

TOMS RIVER, N. J., Nov. 22.—That J. Frank Hickey, jailed here charged with the murder of Joseph Joseph of Lackawanna, N. Y., is on the verge of collapse, was reported following a visit of District Attorney Dudley and Chief of Police Gilson to the jail this afternoon.

Both officials predicted that Hickey would break down and confess before he reached Buffalo. Gilson said the feeling was so strong in Lackawanna that he would take the prisoner to Rochester first. There he will get several detectives to assist him in safely placing Hickey in the Erie county jail.

BOSTON, Nov. 22.—Boston police decided today that the postal cards, purported to have been written by the mysterious "boy murderer" are fakes.

The card received yesterday, telling that Joseph O'Connor, 14, missing since November 8, had been murdered and his body hidden in the Chestnut hill district, also was the work of a crank. A search failed to reveal trace of the boy.

CORONER CAN'T TELL IF CASE IS MURDER

MANITOWOC, Wis., Nov. 22.—A coroner's inquest at Chilton, Wis., today failed to determine whether A. M. Fairchild, former station agent at Kiel, this county, was a suicide or the victim of murder. His body was found at Chilton yesterday with two bullet holes through the chest. Fairchild was recently the victim, according to the story he told the authorities, of robbers who bound and gagged him and robbed the station.

GIBBONS CLAIMS WIN

ST. PAUL, Minn., Nov. 22.—According to several wires received by friends of Edward Reddy, manager of Mike Gibbons, the St. Paul boxer was not bested by McCarren at

Philadelphia, Wednesday night, but played a defensive bout not caring to risk an injury such a short time before his battle of Dec. 3 at Madison Square Garden with Eddie McGoorty. "At that," wires Reddy. "Mike out pointed him four of the six rounds and the bell saved McCarren in the fourth."

Kuco Keeps Baby Dry

A wonderful powder for baby—a new discovery by an old, long established firm of pharmaceutical chemists.

Kuco is the only powder that stays where you put it—a protecting but almost invisible film that keeps baby's skin dry and comfortable. Prevents all friction between the skin and the diaper.

KUCO
VINO-CHAFE
POWDER

does not rub off. It stays on the skin—a soft, velvety film which effectively protects your baby's tender, delicate little body from scalding chafe and all irritation by the garments.

Contains no talc—no grit—no acids. Different from any other toilet powder ever made.

Talcum and other ordinary powders rub off at the slightest touch—and are immediately obliterated by moisture. Kuco No-Chafe Powder stays where you put it—the only toilet powder with this wonderful "staying" quality.

Keeps baby's skin dry because moisture does not penetrate it. Makes baby comfortable and happy even in hottest weather—relieves and prevents prickly heat. Kuco is a blessing to babies. Based on a principle used in leading maternity hospitals and by advanced obstetricians.

●Sold by all good druggists at 25c a box, with revolving sifter top. Get a box of Kuco No-Chafe Powder from your druggist today—and save your baby from the suffering of chafed, irritated and heated skin.
